Raffaela Di Napoli

Deep Into The Forest:

Deep in the Forest Jenny Krainski,2003-05-13 DEEP IN THE FOREST is an adventure story about a young woman Lave who flees her home due to many years of abuse In pursuit of a better life and a place where she will be accepted she finds a baby abandoned in the woods Together they find a hidden village deep in the forest Much to their horror the village is ruled by a ruthless man who controls all of the inhabitants of the village With no where else to turn Lave is forced to live there only soon to be blamed for something terrible that she did not do The ruler then stalks her and the young boy following them to underground fortresses the inside of seemingly forgotten trees and through the dense dark forest Along the way Lave meets a variety of colorful personalities and has the adventure of a lifetime

From the Place in the Valley Deep in the Forest Mitch Cullin,2001-12-03 The stories and characters in this diverse collection of stories from the acclaimed novelist Mitch Cullin provide a fascinating gloss on events that have taken place in the second half of the 20th century They begin at a remote Japanese beach house and end on an unnamed Alaskan island These are stories about isolation remembrances of past experiences and the sometimes inaccurate nature of memory Cullin s stories examine individuals who have survived momentous often horrific social upheavals where relationships and common day to day life are suddenly shaken by unforeseen circumstances From the Place in the Valley Deep in the Forest is a collection that deftly suggests we are all emigrants from personal histories we recall only fleetingly moments which draw us back but as we imagine them seem increasingly difficult to grasp These polished and graceful stories are further evidence of the kind of work that makes Cullin one of our best young writers If something of the experimentalist shows in Cullin s novels his stories are old fashioned in the best sense reporting slices of life as the characters experience them in a language that is economical yet richly evocative because of its precision Booklist
