Den Tandt Christophe (ed.), 2005 Among the intellectual debates of the last forty years the critique of cultural canons has attracted the highest share of public attention stirring academic educational and media controversies on both sides of the Atlantic Postmodernism feminism postcolonialism and multiculturalism have refashioned the attitudes of educators and audiences towards cultural memory opening up curricula to subjects and traditions previously excluded from the humanities Predictably these new critical practices have triggered heated responses from commentators fearing that culture and education might thereby be deprived of their capacity to provide audiences and learners with proper groundings and landmarks The present volume gathers contributions that throw light on multiple aspects of this reconfiguration of cultural memory It brings together essays focusing on the dynamics of canon formation in several fields literature drama film and music Contributors examine how writers and communities find their bearings in a cultural landscape more complex than that previously envisaged by advocates of the Great Tradition Specifically the present essays throw light on the status of modernist writing drama in English or popular genres within the new canonical topography elaborated at the turn of the twenty first century **Performing Early Modern Drama Today** Pascale Aebischer, Kathryn Prince, 2012-10-11 While much attention has been devoted to performances of Shakespeare s plays today little has been focused on modern productions of the plays of his contemporaries such as Marlowe Webster and Jonson **Performing Early Modern Drama Today** offers an overview of early modern performance featuring chapters by academics teachers and practitioners incorporating a variety of approaches The book examines modern performances in both Britain and America and includes interviews with influential directors close analysis of particular stage and screen adaptations and detailed appendices of professional and amateur productions Chapters examine intellectual and practical opportunities to analyse what is at stake when the plays of

Shakespeare's contemporaries are performed by ours Whether experimenting with original performance practices or contemporary theatrical and cinematic ones productions of early modern drama offer an inspiring sometimes unusual always interesting perspective on the plays they interpret for modern audiences The Acclimatisation of the Salmonidae at the Antipodes Arthur Nicols,1882 **New Ways of Looking at Old Texts** Renaissance English Text Society,2008 A New Shakespeare Quarto William Shakespeare,1916 **Shakespeare-Quarto Facsimiles ...** William Shakespeare,1888 Romantic Dialogues and Afterlives Monika Coghén,Anna Paluchowska-Messing,2020 Romantic writers often asserted their individuality but this assertion tended to take the form of positioning themselves in relation to other authors and literary texts Thus they implicitly acknowledged the rich network of broadly understood poetic dialogue as an important and potent source for their own creativity When in 1816 John Keats wrote Great spirits now on earth are sojourning he celebrated the originality of his contemporaries and the historical significance of his times pointing to deep interest in the hum of mighty works in all the fields of human activity to which the nations ought to listen Keats's sonnet suggests not only stimulating exchanges between poets artists and social thinkers in the same language but also the idea of transnational appreciation and dialogue The volume takes up this idea and explores the dialogues of Romantic authors within the wide scope of European and American cultures Essays by scholars from Germany Britain Bulgaria Poland Canada and the United States of America examine Romantic writers responses to their contemporaries explore their dialogues with the culture of the past and their interactions across the arts and sciences They also scrutinize the Romantics far reaching influence on later writers and artists and thus extend the network of artistic exchange to modern times The volume offers a rich tapestry of interconnections that span across time and space interlace languages and cultures and link Romantic writers and artists with their predecessors and successors across Europe and America The essays in the collection invite the reader to join ongoing dialogues between writers and their audiences of the past and present *Shakspeare Quarto Facsimiles: King Richard the second; the 3rd quarto, 1608* William Shakespeare,1888 **Shakespeare-quarto Facsimiles: Richard II. 1597.
