McMahon, Vernon L. Quinsey, 1992-09-16 This volume provides a unique life span developmental perspective on a major social problem aggressive and violent behaviour Among the topics explored are bullying among schoolchildren helping families change wife battering sex offenders and elder abuse Integrating empirical research with clinical applications contributors start by examining issues in the development of aggressive behaviour in young children and its progression in older children and adolescents An exploration of the cause effect and treatment of such behaviour in adults follows Abuse and Neglect of Older Adults in Community Settings Charmaine Spencer, 1996 *Work, Welfare & Social Work Practice* Kathleen Ann Meiss, 1991 This is a study of the search for the essential nature of social work practice The text is divided into two parts The first part presents a theoretical analysis of the intra professional discourse in search of a generic study object for social work practice This is followed by an empirical application of the theoretical findings for the field of occupational social work issue practice traditions and prevailing dilemmas of current practice theory this study examines social work practice in Sweden and the USA today The project is built upon a qualitative research method based upon social work tradition of the use of self as the instrument of practice and complex triangulation design which builds upon a practitioner researcher perspective re examination of social work practice with relationship to the centrality of victimization processes and the relevance of employment for social work clients The study concludes with a proposal for a new Social Justice Model for social work practice to be founded upon basic human rights in the private and public spheres of everyday life as the concrete manifestation of the practice of social work with issues of victimization **Medicine And The Family: A Feminist**

Perspective Lucy M. Candib,1999-10-12 For centuries traditional medicine has been infused with a masculine bias often to the disadvantage of both doctors and patients This book challenges prevailing views and offers a family oriented feminist approach to the practice of medicine Drawing on her 20 years of experience as a family doctor the author dissects the assumptions underlying current teachings about child and adult development sexual abuse the family life cycle and family systems She exposes the ways in which women are often ignored subordinated or blamed in the modern medical system For example she notes that women are often held solely responsible for all problems in their families including child abuse and battering
