*Maternal & Child Health Nursing* Adele Pillitteri, 2010 Growing research shows that many children from immigrant and refugee families are not doing well in school due in part to linguistic and cultural disadvantages Teaching dual language learners requires cultural sensitivity an understanding of language acquisition and intentional teaching strategies Combining research and techniques this resource helps early childhood educators support dual language learners as they develop the skills necessary for school readiness and success      Social Work Treatment with Abused and Neglected Children Chris M. Mouzakitis, Raju Varghese, 1985      **Violence Against Children** David G. Gil, 1970 For this volume Gil examines and interprets a series of nationwide studies of child abuse that were initiated in 1965 in an attempt to unravel the context of social and cultural forces with which violent behavior against children is associated He begins with a definition Physical abuse of children is the intentional nonaccidental use of physical force or intentional nonaccidental acts of omission on the part of a parent or other caretaker interacting with a child in his care aimed at hurting injuring or destroying that child With an approach that is epidemiologic social and cultural rather than clinical and psychological he compiles findings from press and public opinion surveys from analyses of nearly 13 000 incidents of child abuse reported through legal channels across the country during 1967 and 1968 and from a comprehensive study of more than 1300 incidents reported in a representative sample of cities and counties He deals with incidence and community response rather than with case histories The findings Gil maintains suggest that violence against children is rooted in culturally determined theories and practices of child rearing with a higher incidence among the lower educational and socioeconomic strata of society among broken families and among families with four or more children He concludes that perhaps the most serious form of child abuse is that inflicted by society rather than by parents and guardians This societal abuse is manifested by the statistics on infant mortality hunger and malnutrition poverty inadequate medical care poor education and officially sanctioned physical abuse in schools correctional institutions child care facilities and juvenile courts The author further concludes that American culture encourages the use of a certain measure of physical force in rearing children Straightforward and clearly presented Gil s book also suggests a typology of child abuse and recommends a set of structural measures and policies designed to reduce the incidence of abuse
