David Hoeveler,2024-11-12 In 1904 Edmund J James inherited the leadership of an educational institution in search of an identity His sixteen year tenure transformed the University of Illinois from an industrial college to a major state university that fulfilled his vision of a center for scientific investigation Winton U Solberg and J David Hoeveler provide an account of a pivotal time in the university s evolution A gifted intellectual and dedicated academic reformer James began his tenure facing budget battles and antagonists on the Board of Trustees But as time passed he successfully campaigned to address the problems faced by women students expand graduate programs solidify finances create a university press reshape the library and faculty and unify the colleges of liberal arts and sciences Combining narrative force with exhaustive research the authors illuminate the political milieu and personalities around James to draw a vivid portrait of his life and times The authoritative conclusion to a four part history Edmund J James and the Making of the Modern University of Illinois 1904 1920 tells the story of one man s mission to create a university worthy of the state of Illinois [School Memories](#) Cristina Yanes-Cabrera,Juri Meda,Antonio Viñao,2016-09-15 This book reveals how school memories offer not only a tool for accessing the school of the past but also a key to understanding what people today know or think they know about the school of the past It describes in fact how historians work does not purely and simply consist in exploring school as it really was but also in the complex process of defining the memory of school as one developed and revisited over time at both the individual and collective level Further it investigates the extent to which what people know reflects the reality or is in fact a product of stereotypes that are deeply rooted in common perceptions and thus exceedingly difficult to do away with The book includes fifteen peer reviewed contributions that were presented and discussed during the International Symposium School Memories New Trends in Historical Research into Education Heuristic Perspectives and Methodological Issues Seville 22 23 September 2015 [A Life on the Middle West's Never-Ending Frontier](#) Willard L. Boyd,2019-05-15 University of Iowa legend Willard L Sandy Boyd is a proud middle westerner His decades of service to the university began in 1954 when he arrived as a law professor He later became president of the University of Iowa from 1969 to 1981 and led the school through times that were fraught not just for the university but for the country During the intense polarization of the late sixties and early seventies Sandy s compassion and steady leadership ensured that dissent on campus would be honored and would not stop the university s educational mission He quickly became admired not simply for his professional achievements but also for his personal integrity His memoir

interspersed with personal wisdom gleaned over more than six decades of service and leadership encapsulates Sandy's shrewd yet optimistic view of the public university as an institution. At every stage in his life—in the U.S. Navy during World War II while practicing law or teaching and in leadership positions at Chicago's Field Museum and the University of Iowa—Sandy relied on his principles of open disclosure, inclusiveness, and respect for differences to guide him on issues that matter. This chronicle of Sandy's experiences throughout his life shows us the evolution both of the University of Iowa and of the nation writ large. More importantly, this book gives us a lens through which to examine our present situation, whether debating free speech on campus, the role of the arts and humanities in civil society, or the importance of funding for educational and cultural institutions.
