**Academically Speaking** Janet L. Kayfetz, Randy L. Stice, 1987 Designed for ESL students for the types of speaking situations most typical on American college campuses My Freshman Year Rebekah Nathan, 2006-07-25 After fifteen years of teaching anthropology at a large university Rebekah Nathan had become baffled by her own students Their strange behavior eating meals at their desks not completing reading assignments remaining silent through class discussions made her feel as if she were dealing with a completely foreign culture So Nathan decided to do what anthropologists do when confused by a different culture Go live with them She enrolled as a freshman moved into the dorm ate in the dining hall and took a full load of courses And she came to understand that being a student is a pretty difficult job too Her discoveries about contemporary undergraduate culture are surprising and her observations are invaluable making My Freshman Year essential reading for students parents faculty and anyone interested in educational policy **Speaking Qur'an** Timur R. Yuskaev, 2017-10-18 An exploration of how Muslims in the United States have interpreted the Qur'an in ways that make it speak to their American realities In Speaking Qur'an: An American Scripture Timur R Yuskaev examines how Muslim Americans have been participating in their country's cultural social religious and political life Essential to this process he shows is how the Qur'an has become an evermore deeply American text that speaks to central issues in the lives of American Muslims through the spoken word interpretations of Muslim preachers scholars and activists Yuskaev illustrates this process with four major case studies that highlight dialogues between American Muslim public intellectuals and their audiences First through an examination of the work of Fazlur Rahman he addresses the question of how the premodern Qur'an is translated across time into modern American settings Next the author contemplates the application of contemporary concepts of gender to renditions of the Qur'an alongside Amina Wadud's American Muslim discourses on justice Then he demonstrates how the Qur'an becomes a text of redemption in W D Mohammed's oral interpretation of the Qur'an as speaking directly to the African American experience Finally he shows how before and after 9/11 Hamza Yusuf invoked the Qur'an as a guide to the political life of American Muslims Set within the rapidly transforming contexts of the last half century and central to the volume are the issues of cultural translation and embodiment of sacred texts that Yuskaev explores by focusing on the Qur'an as a spoken scripture The process of the Qur'an becoming an American sacred text he argues is ongoing It comes to life when the Qur'an is spoken and embodied by its American faithful *Academic Speaking and the Boundaries of Routinized Lexical Phrases* Susan M. Barone, Summer Dickinson, 2023-03-28 *Academic Speaking and the Boundaries of Routinized Lexical Phrases* explains the concepts and practices of the Academic Speaking course and how recent research and classroom practices have shaped current iterations of this English for Academic Purposes course Authors Susan M Barone and Summer Dickinson provide English language instructors with relevant approaches and strategies for teaching conventional formulaic lexical phrases in academic settings They address questions related to how students acquire and

emulate formulaic language as they move toward constructing longer turns of speech The book also offers readers a cross section of what may take place in the language learning classroom within a university setting to help address the challenge of creating authentic realistic and discipline specific environments to simulate academic settings *Studies in Specialized Discourse* John Flowerdew, Maurizio Gotti, 2006 This book analyses the various features of specialized discourse in order to assess its degree of specificity and diversification as compared to general language Prior to any analysis of such traits the notion of specialized discourse and its distinctive properties are clarified also as compared to other features frequently occurring in specialized texts which cannot be considered distinctive The presence of such properties are accounted for not only in linguistic but also in pragmatic terms since the approach is interpretative rather than merely descriptive The complexity of this discourse calls for a multidimensional analysis covering both lexis and morpho syntax as well as textual patterning Some lexical aspects morphosyntactic features and textual genres are also examined from a diachronic perspective thus showing how various conventions concerning specialized discourse have developed over the last few centuries The Quarterly Journal of Public Speaking ,1916 **Quarterly Journal of Speech Education** ,1915
