then become trapped with our pupils in an unhealthy cycle where we do more and more of the work and they rely on us more and more heavily The Independent Learning Pocketbook is about breaking that cycle and creating ambitious learners who are self regulated self motivated resourceful and resilient learners with clear goals and direction and who use their initiative to achieve success Peter Anstee draws on a variety of research as well as first hand classroom experience and observation in this clear sighted look at how to inspire and nurture the people you teach to become lifelong learners

Boys, Girls & Learning Pocketbook Ian Smith,2015-09-16 There are more similarities than differences between girls and boys but there are innate differences in how they think feel behave communicate and learn That said not all boys and not all girls are the same The challenge for education is to avoid gender stereotyping while understanding and exploiting gender differences for better teaching and learning Ian smith argues that by letting boys be boys and girls be girls we can help them become successful learners who will mature into confident adults comfortable with themselves and with others He covers how to motivate both boys and girls through a combination of challenge and support how to connect with both genders how to create a structured environment that will work for girls and for boys how to actively involve both in their own learning how to give effective feedback and whether boys and girls should be taught separately or together This is not another book that harps on about the problem with boys it takes a refreshing look at the broader picture and gives practical classroom advice
