The Metamorphoses of Don Juan's Women Ann Davies,2004 While many scholars have approached Don Juan in terms of myth this study argues for the understanding of Don Juan as a discourse of gender relations changing over time Using examples from the plays by Tirso de Molina Moliere Mozart Zorrilla Shaw and Frisch it argues that Don Juan s entire identity as a male individual is constructed around women but that over time reflecting a growing sense of crisis in the male individual the women appear more and more pathological in their desire for Don Juan In contrast with early modern works where women fend for themselves in a positive manner the heroines of later Don Juan works actively prey on the individual male This book argues that these changes in approach to the female characters and in tandem the developing identity of the male protagonist suggest Don Juan as dischronic discourse rather than myth
