The Intelligent Optimist's Guide to Life Jurriaan Kamp, 2014-10-13 The world isn't coming to an end contrary to what you may have heard says Jurriaan Kamp Certainly there's upheaval and economic political and social instability but the media's near exclusive focus on conflict and disaster means that the progress and everyday acts of brilliance taking place across the globe go unnoticed which contributes to the sense that apocalypse is at hand And pessimism can be fatal Kamp cites research showing that those who indulge in negative thinking are more likely to smoke be overweight and have high blood pressure high cholesterol and an increased risk of Parkinson's disease than optimists Meanwhile evidence abounds that optimism intelligent optimism not a rose colored glasses brand of wishful thinking is good not only for your mind but for your body too Kamp demonstrates that on the whole we're living longer becoming smarter working less and growing richer Democracy is on the rise and violence is declining He explains how we can cultivate an outlook of informed optimism that will make our lives and the world better because as he quotes Helen Keller No pessimist ever discovered the secret of the stars or sailed to an uncharted land or opened a new doorway for the human spirit

The Optimist's Guide to History Doris Flexner, 1995 The classic look at the past with a very jaundiced eye now with even more disheartening facts The original irreverent jaunt through the catastrophes cataclysms and outrages that shaped our world has sold more than 73 000 copies This updated edition takes us from the Big Bang it was an explosion after all to the turn of the millennium with more than 10 000 new words and 100 new entries that chronicle the disasters bad decisions and downright evil events that have taken place since September 1991 the last entry in the first book With a light but informative tone and a handy timeline of events this is addictively friendly fare for those who want a different some might argue more intriguing view of history
