[The Politics of Historical Memory and Commemoration in Africa](#) Cassandra Mark-Thiesen, Moritz Mihatsch, Michelle Sikes, 2021-12-06 Essays in Memory of Jan Georg Deutsch The volume observes some of the principles that drove Prof Jan Georg Deutsch's research highlighting present day politics for the way they shape historical remembrance learning from people on the ground through fieldwork and oral history and bringing various parts of the African continent into discussion with one another From Cape Town to Charlottesville many societies are grappling with historical consciousness and the production of public memory In particular how and why societies remember and forget what should serve as symbols of collective memory and whether there exists space for multiple memory cultures are questions being vigorously debated once again These discussions present particular challenges not only to official memory bound to ideological constructions of nationhood but also to the teaching of history and its links to social justice movements The volume re-centres Africa and African history in memory studies with each chapter drawing parallels to comparable cases in Africa and the world An underlying assumption is that what can be learned from the politics of historical memory in Africa will have relevance for contemporary politics globally and for understanding how memories can be mobilised for political ends

[Historical Knowledge](#) Susanna Fellman, Marjatta Rahikainen, 2011-10-18 Historical Knowledge approaches the topic of historical knowledge in depth and from various angles It seeks to offer theoretical and methodological building blocks for the use of anyone pursuing historical research This book brings novel insights into classic and topical issues currently under debate the importance of theory in historical thinking the dialectic of text and annotation the actor and observer levels the relationship between the general and the individual the issue of comparison and the problem of sporadic sources and of understanding the singularity of each one The overall theme of the book the possibility of historical knowledge reflects the very issue that makes historical research distinctive the challenges of evidence and the problems both concrete and conceptual with deciphering and interpreting remnants of the past This book refreshes the discussion about sources and proper evidence two issues that the linguistic turn and the postmodern challenge pushed into the background The book addresses these issues in an easily accessible way and serves as an introduction and guide to the role of theory method and evidence in historical research not only for students and scholars of history but also for anyone outside the field with an interest in the topic Historical Knowledge is the first book to include texts by the three eminent historians Professors Natalie Zemon Davis Carlo Ginzburg and Giovanni Levi The other contributors Professors Risto Alapuro

Janken Myrdal and Matti Peltonen are active debaters in current theoretical and methodological discussion

Sexual Revolutions Gottfried Heuer, 2010-11-17 The ideas of psychoanalyst Otto Gross 1877-1920 have had a seminal influence on the development of psychoanalytic theory and clinical practice and yet his work has been largely overlooked For Freud he was one of only two analysts capable of making an original contribution Jung was the other and Jung called Gross my twin brother in the course of their mutual analysis This is a major interdisciplinary enquiry into the history nature and plausibility of the idea of a sexual revolution drawing also on the related fields of history law criminology literature sociology and philosophy Divided into four parts and offering an interdisciplinary and international range of contributors areas of discussion include a contemporary perspective on sexual revolutions the broad influence of Otto Gross the father son conflict a Jungian perspective on history Sexual Revolutions introduces Gross work to the academic and clinical fields of psychoanalysis and Jungian analysis Although most people associate the term with the 1960s its foundations lie in the long neglected but sensational work of the early psychoanalyst Otto Gross This book will be essential reading for all psychoanalysts and Jungian analysts with an interest in learning more about his work

Cultural Studies in India Rana Nayar, 2017-07-05 This volume discusses the development of cultural studies in India It shows how interdisciplinarity and cultural pluralism form the basis of this emerging field It deals with contemporary debates and interpretations of post colonial theory subaltern studies Marxism and post Marxism nationalism and post nationalism Drawing upon literature linguistics history political science media and theatre studies and cultural anthropology it explores themes such as caste indigenous peoples vernacular languages and folklore and their role in the making of historical consciousness A significant intervention in the area this book will be useful to scholars and students of cultural studies and theory literature history cultural anthropology sociology and media and mass communication as well as the general reader

Freud's 'Outstanding' Colleague/Jung's 'Twin Brother' Gottfried M. Heuer, 2016-08-17 Otto Gross was the first analyst to link his work with radical politics connecting inner personal transformation with outer collective change Since his death in 1920 his work has been suppressed despite his seminal influence on the developing analytic discipline and on the fields of sociology philosophy and literature Here Gottfried M Heuer introduces Gross life and ideas using an innovative historiographic methodology he terms trans historical a psychoanalytic intersubjective and trans temporal approach to the past aimed at healing wounded history in the present Heuer considers several previously unpublished sources to explore Gross's ideas and legacy as well as his unusually bohemian life His use of the anarchist concept of mutuality to develop a relational and intersubjective approach in his own analytic theory and clinical practice was unique and his work had a lasting yet unacknowledged influence on Freud Jung with whom he had the first recorded mutual analysis and many other analysts His ideas were appropriated by Max Weber the founder of sociology and by the philosopher Martin Buber playing a pivotal role in what we now call modernity Heuer also explores Gross's paradigmatic father son battle with his father Hans who established the science of criminology

and touches upon Gross's links to the literary field of the early 20th century via Kafka Werfel et al German expressionism and the Dada movement as well as the Anglo American world through the work of D H Lawrence This innovative multi faceted approach to Gross's work and its influence marks a turning point putting him firmly on the map of the historiography of analysis as well as linking this field with the neighbouring disciplines of the history of law and criminology literature sociology and philosophy In addition Gross continuing relevance for leading edge clinical and political ideas is addressed This book will be essential reading for Jungian and Freudian analysts psychotherapists and counsellors academics and students of analysis politics history criminology and sociology
