When Compost Wasn't Cool Stevan A. Brockman,2010-08 Experience the wild roller coaster ride of a double addiction It
did not involve drugs alcohol or any of the other usual suspects but an addiction to the very unusual combination of
composting and farming It started at a very young age and has lasted over forty years without interruption Because of the

addiction my health my family and my well being never got in the way It will be a great treat to meet all the wonderful mentors and roll models that was my great pleasure to work with and interact with These people were all movers and shakers they were all innovators and they were all on the cutting edge They could all handle a tense situation very smoothly whenever it arose and all should have a book written about each of them You will get a very close look at what it takes to compost and farm in a big time arena What it takes as far as machinery manpower management money and the part mother nature plays in all of this I could not have been born at a better time or in a better place An exciting autobiography about a wonderful career and a cast of individuals that I would not trade for anything They all allowed me to be green was green wasn't cool and most importantly to be compost when compost wasn't cool
