   Abstract Interpretation of Declarative Languages Samson Abramsky,Chris Hankin,1987   **Practical Aspects of Declarative Languages** Veronica Dahl,Philip Wadler,2003-07-01 This book constitutes the refereed proceedings of the 5th International Symposium on Practical Aspects of Declarative Languages PADL 2003 held in New Orleans LA USA in January 2003 The 23 revised full papers presented together with 3 invited contributions were carefully reviewed and selected from 57 submissions All current aspects of declarative programming are addressed   Practical Aspects of Declarative Languages Shriram Krishnamurthi,C.R. Ramakrishnan,2003-06-30 Declarative languages build on sound theoretical bases to provide attractive frameworks for application development These languages have been succe fully applied to a wide variety of real world situations including database m agement active networks software engineering and decision support systems New developments in theory and implementation expose fresh opportunities At the same time the application of declarative languages to novel problems raises numerous interesting research issues These well known questions include scalability language extensions for application deployment and programming environments Thus applications drive the progress in the theory and imp mentation of declarative systems and in turn bene t from this progress The International Symposium on Practical Applications of Declarative L guages PADL provides a forum for researchers practitioners and implementors of declarative languages to exchange ideas on current and novel application eas and on the requirements for e ective use of declarative systems The fourth PADL symposium was held in Portland Oregon on January 19 and 20 2002   **Practical Aspects of Declarative Languages** Gopal Gupta,2003-05-20 Declarative languages have traditionally been regarded by the mainstream c puting community as too impractical to be put to practical use At the same time traditionalconferencesdevotedto declarativelanguagesdo not haveissues related to practice as their central focus Thus there are few forums devoted to discussion of practical aspects and implications of newly discovered results and techniques related to declarative languages The goal of the First International Workshop on Practical Aspects of Declarative Languages PADL is to bring together researchers practitioners and implementors of declarative languages to discuss practical issues and practical implications of their research results The workshop was held in San Antonio Texas during January 18 19 1999 This volume contains its proceedings Fifty three papers were submitted in response to the call for papers These papers were written by authors belonging to twenty one countries from six c tinents Each paper was assigned to at least two referees for reviewing Twenty four papers were nally selected for presentation at the workshop Many good papers could not be included due to the limited duration of the workshop The workshop included invited talks by Mark Hayden of DEC Compaq Systems search Center speaking on Experiences Building Distributed Systems in ML and Mark Wallace of Imperial College Center for Planning And Resource C trol IC PARC speaking on ECLiPSe Declarative Specic ation and Scalable Implementation

proceedings of the 15th International Symposium on Practical Aspects of Declarative Languages PADL 2013 held in Rome Italy in January 2013 co located with POPL 2013 the 40th Symposium on Principles of Programming Languages The 17 revised papers presented were carefully reviewed and selected from 33 submissions The volume features original work emphasizing new ideas and implementation techniques for all forms of declarative concepts including functional logic and constraints   Programming Language Implementation and Logic Programming Jan Małuszyński,Martin Wirsing,1991-08-14 This volume contains the papers which have been accepted for presentation atthe Third International Symposium on Programming Language Implementation andLogic Programming PLILP 91 held in Passau Germany August 26 28 1991 The aim of the symposium was to explore new declarative concepts methods and techniques relevant for the implementation of all kinds of programming languages whether algorithmic or declarative ones The intention was to gather researchers from the fields of algorithmic programming languages as well as logic functional and object oriented programming This volume contains the two invited talks given at the symposium by H Ait Kaci and D B MacQueen 32 selected papers and abstracts of several system demonstrations The proceedings of PLILP 88 and PLILP 90 are available as Lecture Notes in Computer Science Volumes 348 and 456   **Programming Language Implementation and Logic Programming** Pierre Deransart,Jan Maluszynski,1990-08-08 This volume consists of the papers accepted for presentation at the second international workshop on Programming Language Implementation and Logic Programming PLILP 90 held in Link ping Sweden August 20 22 1990 The aim of the workshop was to identify concepts and techniques used both in implementation of programming languages regardless of the underlying programming paradigm and in logic programming The intention was to bring together researchers working in these fields The volume includes 26 selected papers falling into two categories Papers in the first category present certain ideas from the point of view of a particular class of programming languages or even a particular language The ideas presented seem to be applicable in other classes of languages Papers in the second category directly address the problem of integration of various programming paradigms The proceedings of the predecessor workshop PLILP 88 held in Orl ans France May 16 18 1988 are available as Lecture Notes in Computer Science Vol 348   **Practical Aspects of Declarative Languages** ,2003   **Static Analysis** Patrick Cousot,2003-05-15 This book constitutes the refereed proceedings of the 8th International Symposium on Static Analysis SAS 2001 held in Paris France in July 2001 The 21 revised full papers presented together with 2 invited papers were carefully reviewed and selected from 62 submissions also included are 5 abstracts of an invited session on security The papers are organized in topical sections on program transformation strictness and termination semantics abstraction logic and constraint programming data structures pointer analysis model checking and abstract model checking   *Proceedings of the 1992 ACM Conference on LISP and Functional Programming* Association for Computing Machinery,1992   **Efficient Computation of Fixpoints that Arise in Abstract Interpretation** Li-Ling Chen,1994 A parallel algorithm based on entailment is presented and a method is proposed for

determining the maximum inherent parallelism of any algorithm based on entailment We perform experiments in which actual analysis executions are traced their inherent parallelism is determined and a post trace simulation on limited processors is performed Experiments show that the parallel algorithm we propose realizes the maximum inherent parallelism given unlimited processors and performs efficiently on limited processors   Conference Record of POPL '94, 21st ACM SIGPLAN-SIGACT Symposium on Principles of Programming Languages ,1994 Proceedings Parallel Computing

Programming Languages and Systems S. Doaitse Swierstra,2003-07-31 This is the second time that of ESOP has formed part of the ETAPS cluster of conferences workshops working group meetings and other associated activities One of the results of colocatingso many conferences is a reduction in the number of possibilities to submit a paper to a European conference and the increased competition between conferences that occurs when boundaries between indiv ual conferences have not yet become well established This may have been the reason for the fact that only 44 submission were received this year On the other hand we feel that the average quality of submissions has gone up and thus the program committee was able to select 18 good papers only one less than the year before The program committee did not meet physically and all discussion was done usinga Web driven data base system Despite some mixed feelings there is an overall tendency to appreciate the extra time available for giving papers a s ond look and really going into comments made by other program committee members I want to thank my fellow program committee members for the work they have put into the refereeingprocess and the valuable feedback they have given to authors I want to thank the referees for their work and many detailed comments and nally I want to thank everyone who has submitted a paper without authors no conference   **Journal of Programming Languages** ,1995   Proceedings of the 1992 International Conference on Parallel Processing, August 17-21, 1992, University of Michigan: Software ,1992   *Programming Languages Implementation and Logic Programming* ,1993   **Static Analysis** Radhia Cousot,2003-05-28 Staticanalysisisaresearchareaaimedatdevelopingprinciplesandtoolsforv i cation and semantics based manipulation of programs and high performance implementations of programming languages The series of Static Analysis s posia has served as the primary venue for presentation and discussion of th retical practical and application advances in the area This volume contains the papers accepted for presentation at the 10th ternational Static Analysis Symposium SAS 2003 which was held June 11 13 2003 in San Diego California USA Firmly established as a leading forum in the static analysis area SAS 2003 received 82 high quality submissions Each paper was carefully reviewed being judgedaccordingtoscienti cquality originality andrelevancetothesymposium topics Following on line discussions the program committee met in Paris France at the Ecole Normale Sup erieure on March 15 2003 and selected 25 papers In addition to the contributed papers this volume includes an invited paper by Manuel Hermenegildo Technical University of Madrid and University of New Mexico and the abstractof aninvited talk by KenMcMillan Cadence Berkeley Laboratories On behalf of the Program Committee and the General Chair I would like to thank the authors of the submitted papers and the external
