Upheavals of Thought Martha C. Nussbaum, 2001-08-27 Emotions shape the landscape of our mental and social lives Like geological upheavals in a landscape they mark our lives as uneven uncertain and prone to reversal Are they simply as some have claimed animal energies or impulses with no connection to our thoughts Or are they rather suffused with intelligence and discernment and thus a source of deep awareness and understanding In this compelling book Martha C Nussbaum presents a powerful argument for treating emotions not as alien forces but as highly discriminating responses to what is of value and importance She explores and illuminates the structure of a wide range of emotions in particular compassion and love showing that there can be no adequate ethical theory without an adequate theory of the emotions This involves understanding their cultural sources their history in infancy and childhood and their sometimes unpredictable and disorderly operations in our daily lives **Law, Religion and Love** Paul Babie, Vanja-Ivan Savić, 2017-09-01 Increasingly the modern

neo liberal world marginalises any notion of religion or spirituality leaving little or no room for the sacred in the public sphere While this process advances the conservative and harmful behaviours associated with some religions and their adherents exacerbate this marginalisation by driving out those who remain religious or spiritual And all of this is seen through the lens of social science which seems to agree that religion remains important if not in spiritual sense at least as a source of folklore and a means of identification religions remain rooted in the societies from which they emerged and the legal systems of many of those societies emerged from religious sources even if those societies remain unwilling to admit that fact In the modern materialistic world of conformity religion is less a source of guidance than a label of identification The world therefore faces two issues First the decreasing level of spirituality in the West widens the gap between worshippers and those who have left their faith eg agnostics and atheists or those who look at religion as a matter of picking and choosing from a range of options And second the strong connections to religion which remain in many nations but which are often misused in the secular public sphere both in the West and internationally In such divided worlds both religious and secular forces tend to lock themselves into closed groupings of pure truth and in so doing increase the level of disagreement in turn producing radicalism In short the modern world is divided in two ways between religious and non religious although some have argued that the non religious secular is itself a form of civil religion and between those subscribing to divergent understandings of the same religious tradition While hyperbolic and histrionic the term culture wars nonetheless best captures what we see happening in the public sphere today The question emerges then how best to accommodate the democratic principle which posits that the majority should feel that it lives in a society of its own with the human rights principle holding that is necessary to ensure the full protection of the minority s rights How to balance these seemingly opposed principles We are very familiar with the differences that appear between secular and sacred in the modern world yet what of the similarities amongst scriptures and laws which seek to encourage mutual understanding cooperation and even cohabitation Because religion itself is a source of law a set of exhortations or commands as much as a set of rights every major religion offers an approach to encountering the Other in a positive constructive affirming way and it is here that religions reveal much that they have in common This book draws together the work of scholars engaged in exploring the possibilities for a utopian world in the sense fostered by St Thomas More The essays explore those dimensions of religious and civil law where love however that is defined by relevant texts fosters and encourages acceptance of the Other and will offer perspectives on the ways in which religious or civil state law command one to act in the spirit of love White House Studies Compendium Robert W. Watson,2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendia consists of the combined and rearranged issues of the journal White House Studies with the addition of a comprehensive subject index Preface **Dante's Thought and Poetry** Rocco Montano,1988 **In a Manner of Morall Playe** Liliana Sikorska,2002 This book investigates and interprets various social

ideologies in the moralities and interludes dramatic texts of the late medieval period Most of the selected plays have not been previously analyzed from the perspective of the linguistic and ideological content Seen within the larger cultural context mainly compared with other non dramatic texts of the period these texts represent rich sources of those social ideologies whose aim was to create principled individuals and a morally sound well functioning society *Philosophy and Religion* Augustus Hopkins Strong,1888 **Library of Universal Knowledge** ,1880 **The American Universal Cyclopædia** ,1882 The Transvaal in War and Peace Neville Edwards,1900 The International Cyclopedia ,1890 **The International Cyclopædia** Harry Thurston Peck,Selim Hobart Peabody,Charles Francis Richardson,1900 The International Cyclopedia Harry Thurston Peck,1898
