Abysse Verse To Fall Into:

Falling in Truth: The Education of a Jehovah's Witness Steve McRoberts, **The Deep Things of God** Jon Paulien, 2004 This practical handbook for studying the book of Revelation brings a fresh look and helpful insights to a sometimes perplexing book

WAKE UP CHURCH Ryan Richardson, 2014-09-02 I began the study of the subject of Christ's second coming and the end times in detail with much prayer and study I must say that I have been intrigued with the book of Revelation for years Through those years I have been rotating from position to position in reference to pre trib mid trib and post tribulation As I would read various scriptures they would seem to contradict each other and point to a specific yet different time for the return of Christ on the clouds to gather His saints Perhaps you too have been confused about the timing of the second coming of Jesus and the end times Maybe you too have changed your position a few times depending on the various scriptures you happen to be reading at the time Or is there a chance that you hold a particular position but if pressed to support it wellllll In addition to our own confusions and variations there are the traditional beliefs and doctrines within the various churches that differ as much as the churches themselves I have asked questions to pastors deacons Sunday School teachers and other faithful saints and have received widely differing opinions about this subject There were none who could entirely support their positions with scriptures that did not conflict with their own opinions The usual final response from all I have spoken with goes somewhat like this Well these things are just not meant to be understood at this time UNTIL NOW at least for me This book shares with specific scriptural documentation that will remove all confusion about timing of the Second Coming of Jesus Christ I hope you are blessed by it

Abysse Brenda Alyss Schaeffer, 2003-07 It's 2159 and mankind has only recently developed a space drive system that allows for traveling light year distances within the galaxy In fact that's the maximum single trip distance that they can travel Humans must hop and skip in and around near space by a series of single light year jumps At this time in mankind's history two distinct classes of humans are emerging the class who lives in space aboard spacecraft on asteroids low g habitats or Pony Station satellites and resemble hairless orangutans The other class being those who live on planetary surfaces and who still

retain the familiar shape of surface dwelling humans Both classes have enjoyed a genetic modification that grants a longer life span Humans live for more than 250 years Exploration beyond the limits of the solar system has recently begun At a distance of six light years from Earth a planet had been discovered sixty seven degrees from the plane of the ecliptic in the system the space explorers have named Brandio They ve named the planet Chon because of the availability and correct percentages of carbon hydrogen oxygen and nitrogen suitable for supporting human life and development humans have been living on its surface for five years Mankind hopes this effort is the first of many far flung colonies that will eventually follow more discoveries of habitable planets A very dangerous and lethal form of circumscribed intelligence has recently been discovered in a large valley on the other side of the planet from the first human colony The intelligence exists in the form of alien shadows who for some reason collapse explode and die at the end of each day when the sun disappears Possessing considerable weight the crashing shadows have killed six humans from the colony who were exploring the valley and completely destroyed all other forms of life within their area The area of destruction is increasing in size on a daily basis and if not stopped will eventually inundate the entire planet The mysteries of how this particular nemesis the shadows came to be and why they live such short and devastating lives must be solved They must stop the encroachment of the shadows over the surface of the planet if the human population on the planet is to survive The crew of the spacecraft The Eighteenth of Darkness II has been called to help solve the mystery behind the deadly shadows Five generations of space humans are on board and include three siblings who with the help of a 250 year old great great great grandfather and a ten thousand year old friendly snail like alien travel to the planet and assist in solving the problem What they find is an interesting and perplexing situation an alien experiment gone awry The adventure includes a disclosure of the past history of Earth s space travel discoveries and breakthroughs The team manages to solve the shadow problem but only after receiving some much needed assistance from a highly unlikely source thirteen great great great grandchildren who possess a single minded mentality and powers that are going to lead mankind into a new realm for its future *Journal of Biblical Literature* ,1894
