

A Parent Guide to the Accelerated Reader Program

What is the Accelerated Reader Program?

Accelerated Reader is a computer program that allows you to help monitor your child's reading progress. It is a self-paced program that allows your child to read at his or her own level.

1. Read the Book

After your child has selected the book, they should read independently at home and do a short quiz or quiz later at school. The program will track the number of books read and the score on the quiz.

2. Track the Progress

The program will track the books that your child reads, along with their quiz scores and test scores. The information is then used by teachers to monitor children's progress and to offer additional support if and when needed. The idea of the program is to help children to develop their reading skills at their own pace.

Benefits of the Accelerated Reader Program?

Encourage children to read regularly, making reading an exciting and enjoyable activity.

Help to read with the program and get extra help if needed at school.

Monitor an individual's progress by keeping their book records in the program.

Monitor the progress of the program and provide support if needed.

How can I help my child at home?

Read at least 15 minutes for reading to help improve reading skills. The more books read the better the score they will get at school.

Read all books your child can read. The more books read the better the score they will get at school. You can also communicate with the program.

Read together and let your child explain the book to you. This will help them to understand the book better.

Encourage conversations about the books and questions like "What is your favorite character?" "How do you think the character will react to the next event?" "What do you think the story will be about?"

Encourage your child to read for fun and provide additional support if they struggle to help continue their reading.

Monitor the progress of the program and provide support if needed.

Concerns and Standings

What should I do if my child asks why books to get more points?

Reading books that are not within the reading ability may seem appealing to your child as they will be able to read the books quickly and score highly. However, this is not the best way to improve their reading skills. The program is designed to provide challenge that is suited to the child's reading level and to help them to improve their reading skills.

Why reading is better?

The program will track the books that your child reads, along with their quiz scores and test scores.
