Kahle, 2014-02-05 Accounting carries with its history a vast number of ideas which have slowly developed along with it This volume relates this history as it took place during the first three decades of the twentieth century in the United States In particular it deals with those individuals who were for the most part responsible for it It was these pioneers who recorded their observations of the actual workings of the myriad adaptations and new devices which had slowly eased their way into accounting theory and practice in the USA in the early twentieth century Memorial Articles for 20th Century American Accounting Leaders Stephen Zeff, 2016-03-31 This collection of memorial articles and selected obituaries highlights the careers and contributions to accounting practice the accounting profession and the accounting literature of leading American figures in the 20th century The memorial articles do much more than recite their subject s career More importantly they discuss and assess their subject s role in influencing the course of accounting practice and the profession as well as the evolution of their influential writings revealing the names of the accounting leaders and leading thinkers of the past century Memorial Articles for 20th Century American Accounting Leaders is useful in providing students and young researchers with a rich source of intelligence on the leaders who have established norms of practice advanced the profession and set the terms of debate in the literature leaders who are cited and even quoted but who are known mostly as names without a full bodied treatment of their backgrounds and broader roles in shaping the accounting literature Twentieth Century Accounting Thinkers (RLE Accounting) J. Edwards, 2014-02-05 When originally published in 1994 this volume was the first international review of accounting theory to focus on the contributions of its leading thinkers Very few attempts had been made in the accounting literature to assess the contribution of the theorists who have had such an important influence on the direction of research and practice Written by experts the studies in this volume provide a unique guide to the development of accounting theory and practice in regions as diverse as the USA Japan and Europe **Journal of Accountancy** ,1930 Cash Flow Reporting (RLE Accounting) Thomas Lee, 2014-02-05 This collection explores Kuhn s 1970 perception of a scientific revolution in the form of a cyclical sequence of anomaly recognition insecurity alternative ideas schools of thought and dominating practices Cash flow reporting has become a dominant accounting practice which emerged from a developmental process of Kuhnian form The text is constructed around the various stages identified by Kuhn and selected readings are categorised accordingly Problems in Industrial Accounting Thomas Henry Sanders, 1923 **American Accountant** ,1930 Electrical Experimenter ,1922 **The Accounting Review** William Andrew Paton, 1927 Includes section Reviews **Classified Catalogue of the Carnegie Library of Pittsburgh** Carnegie Library of Pittsburgh, 1914 Classified Catalogue of the Carnegie Library of Pittsburgh. 1907-1911 ,1913 **Classified**
