can achieve their goals It is essential for women in Africa to complete their PhD education to contribute to the development of their countries as some scholars believe no nation can grow without women s participation Thus modern civilisation is the result of males and females cooperating in modern society Even though some women complete their PhD studies there is scant research on what strategies enabled their success Instead the reasons for their attrition are known This book aims to contribute to PhD education scholarship specifically for women in Africa It allows women in Africa to narrate their PhD experiences through resilience theory and the capabilities approach lenses
