**Shaman and Sage (The Divine Self, vol. 1)** Michael Horton,2024-05-28 The first volume of Michael Horton s magisterial intellectual history of spiritual but not religious as a phenomenon in Western culture Discussions of the rapidly increasing number of people identifying as spiritual but not religious tend to focus on the past century But the SBNR phenomenon and the values that underlie it may be older than Christianity itself Michael Horton reveals that the hallmarks of modern spirituality autonomy individualism utopianism and more have their foundations in Greek philosophical religion Horton makes the case that the development of the shaman figure in the Axial Age particularly its iteration among Orphists represented a divine self One must realize the divinity within the self to break free from physicality and become one with a panentheistic unity Time and time again this tradition of divinity hiding in nature has arisen as an alternative to monotheistic submission to a god who intervenes in creation This first volume traces the development of a utopian view of the human individual a divine soul longing to break free from all limits of body history and the social and natural world When the second and third volumes are complete students and scholars will consult *The Divine Self* as the authoritative guide to the spiritual but not religious tendency as a recurring theme in Western culture from antiquity to the present

Parrish, 2014-04-21 The virtue of mercy is widely admired but is now marginalized in contemporary public life Yet for centuries it held a secure place in western public discourse without implying a necessary contradiction with justice Alex Tuckness and John M Parrish ask how and why this changed Examining Christian and non Christian ancient traditions along with Kantian and utilitarian strains of thought they offer a persuasive account of how our perception of mercy has been transformed by Enlightenment conceptions of impartiality and equality that place justice and mercy in tension Understanding the logic of this decline they argue will make it possible to promote and defend a more robust role for mercy in public life Their study ranges from Homer to the late Enlightenment and from ancient tragedies to medieval theologies to contemporary philosophical texts and will be valuable to readers in political philosophy political theory and the philosophy of law The Art of Empire Lee M. Jefferson, Robin M. Jensen, 2015-10-01 In recent years art historians such as Johannes Deckers *Picturing the Bible* 2009 have argued for a significant transition in fourth and fifth century images of Jesus following the conversion of Constantine Broadly speaking they perceive the image of a peaceful benevolent shepherd transformed into a powerful enthroned Jesus mimicking and mirroring the dominance and authority of the emperor The powers of church and state are thus conveniently synthesized in such a potent image This deeply rooted position assumes that ante pacem images of Jesus were uniformly humble while post Constantinian images exuded the grandeur of power and glory The Art of Empire contends that the art and imagery of Late Antiquity merits a more nuanced understanding of the context of the imperial period before and after Constantine The chapters in this collection each treat an aspect of the relationship between early Christian art and the rituals practices or imagery of the Empire and offer a new and fresh perspective on the development of Christian art in its imperial background **Complete Works of Rev. Provocative Form in Plato Kant Nietzsche and Others seeks 1 to liberate form from its primary affiliation with intellect and with its putative structural function and 2 to relocate it as the correlate of imagination and desire Through careful analyses of key texts in Plato Kant Nietzsche Schelling and others the originary but largely concealed sense of form presents itself as shot through with darkness and play even as it illuminates and orders experience Far from being secondary or settled philosophical form is provocative by its very nature      **Circular of Information to Accredited Schools** University of Missouri.
