The Art of Scripture The National Gallery, 2025-09-18 From the majesty of Genesis to the

mystery of Revelation the Bible contains some of the world's most powerful stories and sublime wisdom. It is also the inspiration for some of the greatest pictures ever painted: Adam and Eve in the Garden of Eden, Moses and the exodus from Egypt, Samson betrayed by Delilah, David slaying Goliath, the beauty of Bathsheba, the wisdom of Solomon; these are among the dramatic scenes and memorable characters in the Old Testament portrayed here by artists such as Poussin, Rembrandt and Rubens. In the New Testament the figure of Jesus takes centre stage with his compelling parables and miracles depicted by artists such as Caravaggio, Duccio, El Greco, Raphael, Titian and Velazquez. Together these words and paintings convey a profound sense of the sacred. Both may go back many hundreds of years and yet they still have the power to move and inspire us today.

[The Dore Bible Gallery Containing One Hundred Superb Illustrations](#), 2014-03-29 This is a new release of the original 1890 edition.

The Dore Gallery Gustave Dore, 2015-10-25 Biblical Illustrations The Dor Gallery of Bible Illustrations by Gustave Dor. This volume, as its title indicates, is a collection of engravings illustrative of the Bible, the designs being all from the pencil of the greatest of modern delineators, Gustave Dor. The original work from which this collection has been made met with an immediate and warm recognition and acceptance among those whose means admitted of its purchase, and its popularity has in no wise diminished since its first publication, but has even extended to those who could only enjoy it casually or in fragmentary parts. That work, however, in its entirety was far too costly for the larger and ever widening circle of M. Dor's admirers, and to meet the felt and often expressed want of this class, and to provide a volume of choice and valuable designs upon sacred subjects for art-loving Biblical students, generally, this work was projected and has been carried forward. The aim has been to introduce subjects of general interest, that is, those relating to the most prominent events and personages of Scripture, those most familiar to all readers, the plates being chosen with special reference to the known taste of the American people. To each cut is prefixed a page of letter press in narrative form, and containing generally a brief analysis of the design. Aside from the labors of the editor and publishers, the work while in progress was under the pains-taking and careful scrutiny of artists and scholars, not directly interested in the undertaking, but still having a generous solicitude for its success. It is hoped, therefore, that its general plan and execution will render it acceptable both to the appreciative and friendly patrons of the great artist, and to those who would wish to possess such a work solely as a choice collection of illustrations upon sacred themes.

Picture World Rachel Teukolsky, 2020-08-16 The modern media world came into being in the nineteenth century when machines were harnessed to produce texts and images in unprecedented numbers. In the visual realm, new industrial techniques generated a deluge of affordable pictorial items.

mass printed photographs posters cartoons and illustrations These alluring objects of the Victorian parlor were miniaturized spectacles that served as portals onto phantasmagoric versions of the world Although new kinds of pictures transformed everyday life these ephemeral items have received remarkably little scholarly attention Picture World shines a welcome new light onto these critically neglected yet fascinating visual objects They serve as entryways into the nineteenth century s key aesthetic concepts Each chapter pairs a new type of picture with a foundational keyword in Victorian aesthetics a familiar term reconceived through the lens of new media Character appears differently when considered with caricature in the new comics and cartoons appearing in the mass press in the 1830s likewise the book approaches realism through pictorial journalism illustration via illustrated Bibles sensation through carte de visite portrait photographs the picturesque by way of stereoscopic views and decadence through advertising posters Picture World studies the aesthetic effects of the nineteenth century s media revolution it uses the relics of a previous era s cultural life to interrogate the Victorian world s most deeply held values arriving at insights still relevant in our own media age
