Museums in Motion Juilee Decker, 2024-08-06 This book explores the histories and functions of museums while also looking at the current standing of museums and their ongoing efforts toward relevance resiliency and future proofing Section

I examines the beginnings of museums with chapters dedicated to art and design museums natural history and anthropological museums science museums museums focused history and the past and gardens zoos and children s museums Emphasis is on museums in the United States with some historical framing beyond the U S Section II explores the primary functions of museums including conservation exhibition interpretation engagement and service Section III examines museums from within by exploring critical issues and contemporary movements facing museums and our society transparency and openness labor and equity belonging and coalition building risk taking and risk aversion and sustainability and empathy Advocating for change rather than death to museums Museums in Motion demonstrates the very premise that museums have been in motion all along as they have shifted from their rather simple form of a treasury storehouse and tomb to something much more complex by deeply considering where museums have come from where they are today and where they are going Entirely new to this edition Section III Museum Aspirations features five new chapters each centered around topics rather than a museum type or museum function Each topic is meant to be a micro narrative and springboard for a conversation about museums today and their sustainability in the future The chapters examine museums from the inside museum workers and their voices especially as well as power held by people and institutions and DEIA without using those individual words as chapter headings On their own or in conjunction with the chapters in the previous sections of this book these chapters serve as vignettes that can help readers to understand where how and why we need to apply critical lenses to institutions and articulate how doing so helps us to understand this historical moment and ultimately how we can realize resiliency and sustainability for museums and those who make their existence possible America in the Seventies Beth L. Bailey,2004 The seventies witnessed economic decline in America coupled with a series of foreign policy failures events that created an air of unease and uncertainty This volume examines the ways in which Americans responded to a changing world and sought to redefine themselves **Museums in Motion** Edward P. Alexander,Mary Alexander,Juilee Decker,2017-02-23 Here is a complete introduction to the history of museums types of museums and the key roles that museums play in the twenty first century Following an introductory chapter looking at what a museum is today Part I looks at the history and types of museums art and design museums natural history and anthropology museums science museums history museums historic houses interpretation centers and heritage sites botanical gardens and zoos children s museums The second part of the book explores the primary functions of museums and museum professionals to collect to conserve to exhibit to interpret and to engage to serve and to act The final chapter looks at the museum profession and professional practices Throughout emphasis is on museums in the United States although attention is paid to the historical framing of museums within the European context The new edition includes discussions of technology access and inclusivity woven into each chapter a list of challenges and opportunities in each chapter and Museums in Motion Today vignettes spread throughout the volume in which museum professionals provide their perspectives on where museums are now and where they are going More than 140
