Adam, Apes and Anthropology Glenn R. Morton,2017-12-31 Glenn Morton used to be a young earth creationist but the facts changed his views In this his second book Morton shows that mainstream science does not contradict a literal reading of the inerrant word of God The author provides proof that God created Adam and Eve about 5 5 million years B C Please note that for formatting purposes there is an intentionally blank page between pages 5 and 6 of the main text *Deep Time Dreaming* Billy Griffiths,2018-02-26 People would have known about Australia before they saw it Smoke billowing above the sea spoke of a land that lay beyond the horizon A dense cloud of migrating birds may have pointed the way But the first Australians were voyaging into the unknown Soon after Billy Griffiths joins his first archaeological dig as camp manager and cook he is hooked Equipped with a historian s inquiring mind he embarks on a journey through time seeking to understand the extraordinary deep history of the Australian continent *Deep Time Dreaming* is the passionate product of that journey It investigates a twin revolution the reassertion of Aboriginal identity in the second half of the twentieth century and the uncovering of the traces of ancient Australia It explores what it means to live in a place of great antiquity with its complex questions of ownership and belonging It is about a slow shift in national consciousness the deep time dreaming that has changed the way many of us relate to this continent and its enduring dynamic human history John Mulvaney Book Award Winner Ernest Scott Prize Winner NSW Premier s Literary Awards Winner Book of the Year NSW Premier s Literary Awards Winner Douglas Stewart Prize for Non fiction Victorian Premier s Literary Awards Highly Commended Queensland Literary Awards Shortlisted Prime Minister s Literary Awards Shortlisted Educational Publishing Awards Shortlisted Australian Book Industry Awards Longlisted CHASS Book Prize Longlisted What a revelatory work If you wish to hear the voice of our continent s history before the written word *Deep Time Dreaming* is a must read The freshest most important book about our past in years Tim Flannery Once every generation a book comes along that marks the emergence of a powerful new literary voice and shifts our understanding of the nation s past Billy Griffiths *Deep Time Dreaming* is one such book Deeply researched creatively conceived and beautifully written it charts the expansion of archaeological knowledge in Australia for the first time No other book has managed to convey the mystery and intricacy of Indigenous antiquity in quite the same way Read it it will change the way you see Australian history Mark McKenna historian Billy Griffiths *Deep Time Dreaming* Uncovering Ancient Australia is a remarkable book and one destined I believe to become a modern classic of Australian history writing Written in vivid evocative prose this book will grip both the expert and the general reader alike Iain McCalman author of *The Reef A Passionate History The Great Barrier Reef from Captain Cook to Climate Change*

Forgotten Origin Steven Strong,Evan Strong,2011-03-29 *Forgotten Origin* is the third in a series of books dedicated to the first Homo sapiens the Australian Aboriginal people Steven Strong and Evan Strong continue in their investigation into

the global impact of Aboriginal people sailing from never to Australia no less than 50 000 years ago paying particular attention to the shared principles found within many Gnostic scriptures and the Dreaming As radical as this theory may appear the rigor applied whether through mtDNA Y Chromosomes skull morphology or historical accounts and the religious ancestry upon which this hidden history is founded demands serious consideration This is not their story Steven Strong and Evan Strong make no claim to speak on behalf of anyone They do however have the right to relay that which Aboriginal culture custodians insist is true The First Australians are unique and in no way descended from Africans or any other race Forgiven Origin is merely another reminder of this hidden truth

Australia's First Naturalists Penny Olsen,Lynette Russell,2019-05-01 Would Blaxland Wentworth and Lawson have ever crossed the Blue Mountains without the help of the local Aboriginal people The invaluable role of local guides in this event is rarely recognised As silent partners Aboriginal Australians gave Europeans their first views of iconic animals such as the Koala and Superb Lyrebird and helped to unravel the mystery of the egg laying mammals the Echidna and Platypus Well into the twentieth century Indigenous people were routinely engaged by collectors illustrators and others with an interest in Australia s animals Yet this participation if admitted at all was generally barely acknowledged However when documented it was clearly significant Penny Olsen and Lynette Russell have gathered together Aboriginal peoples contributions to demonstrate the crucial role they played in early Australian zoology The writings of the early European naturalists clearly describe the valuable knowledge of the Indigenous people of the habits of Australia s bizarre to a European fauna Australia s First Naturalists is
