Women Architects and Politics Mary Pepchinski, Christina Budde, 2022-09-27 In the late 1960s the feminist scholar Kate Millet broadly defined politics as arrangements of power which enable individuals collectively to assert authority over others Taking this definition case studies by scholars from Europe Israel and the United States explore the gendered professional in the 20th century as she navigated arrangements of power including organised religion emancipation movements cultural norms and shifting forms of government to practice architecture Additional contributions reflect upon power structures in contemporary architectural education practice and history to propose other means of architectural knowledge representation and professional activity **Where Are the Women Architects?** Despina Stratigakos, 2016-04-12 A timely and important search for architecture's missing women For a century and a half women have been proving their passion and talent for building and in recent decades their enrollment in architecture schools has soared Yet the number of women working as architects remains stubbornly low and the higher one looks in the profession the scarcer women become Law and medicine two equally demanding and traditionally male professions have been much more successful in retaining and integrating women So why do women still struggle to keep a toehold in architecture Where Are the Women Architects tells the story of women's stagnating numbers in a profession that remains a male citadel and explores how a new generation of activists is fighting back grabbing headlines and building coalitions that promise to bring about change Despina Stratigakos's provocative examination of the past current and potential future roles of women in the profession begins with the backstory revealing how the field has dodged the question of women's absence since the nineteenth century It then turns to the status of women in architecture today and the serious entrenched hurdles they face But the story isn't without hope and the book documents the rise of new advocates who are challenging the profession's boys club from its male dominated elite prizes to the erasure of women architects from Wikipedia These advocates include

Stratigakos herself and here she also tells the story of her involvement in the controversial creation of Architect Barbie
