material A new more user friendly structure This volume reveals how architects approach drawing as a process wherein

ideas are given form As a tool for teaching these examples become important in students understanding of the formal and

technical aspects of design thought In an age of digital technologies this work emphasizes the intimate relationship that

exists between the drawing and its maker the process between paper hand and mind LaRaine Papa Montgomery Professor of

Architecture Graphics Coordinator Savannah College of Art and Design A wonderful resource on design visualization and

graphic communication that covers all aspects of drawing conventions and manual techniques of representation Richly

illustrated and professionally presented in a way that makes it accessible to beginners as well as advanced students this book

stands out as a core reference for courses on design graphics Dr Samer Akkach Senior Lecturer in Architecture and

Design The University of Adelaide South Australia This book contains an abundance of some of the most inventive graphic

presentations by world class architects As I browse through this book the hundreds of pages of thought provoking images

both relax and excite me an experience that only a good read can bring It illuminates the process of visual thinking behind

some of the most creative minds As the profession is becoming more and more constrained by economics and time this book
