*The Architectural History of Venice* Deborah Howard, Sarah Quill, Laura Moretti, 2002-01-01 Overzicht van de Venetiaanse architectuur vanaf de stichting in de Romeinse tijd tot nu *A History of Venetian Architecture* Ennio Concina, 1998 The history of Venetian architecture is no less remarkable than the history of that city itself and Ennio Concina's comprehensive survey draws on extensive original research on the city's cultural history to offer fresh insights and an energetic approach to the architecture Beginning with the traces of classical activity found in the territory which became ducal Venice to its establishment as an *urbs magna* in the Byzantine age and the architectural glories of the Renaissance and Baroque city Concina discusses the influence of Venice's extraordinary position in history and geography on the architectural styles to be found there He overturns many long established theories on the development of the lagoon city and discusses the work of many of history's most famous architects Sansovino Sanmicheli Palladio Longhena bringing the story up to date with his examination of the twentieth century's attempts to expand the economy and preserve the city's heritage This lavishly produced title is a co edition with Electa Books Italy **Venice** Guido Zucconi, Donatella Calabi, 1993 A handy pocket sized guide which covers the complete architectural history of the city from its origins to the present Maps and plans facilitate location **Artistic Practices and Cultural Transfer in Early Modern Italy** Allison Sherman, 2017-07-05 For too long the centre of the Renaissance has been considered to be Rome and the art produced in or inspired by it This collection of essays dedicated to Deborah Howard brings together an impressive group of internationally recognised scholars of art and architecture to showcase both the diversity within and the porosity between the centre and periphery in Renaissance art Without abandoning Rome but together with other centres of art production the essays both shift their focus away from conventional categories and bring together recent trends in Renaissance studies notably a focus on cultural contact material culture and historiography They explore the material mechanisms for the transmission and evolution of ideas artistic training and networks as well as the dynamics of collaboration and exchange between artists theorists and patrons The chapters each with a wealth of groundbreaking research and previously unpublished documentary evidence as well as innovative methodologies reinterpret Italian art relating to canonical sites and artists such as Michelangelo Titian Tintoretto Veronese and Sebastiano del Piombo in addition to showcasing the work of several hitherto neglected architects painters and an inimitable engineer inventor **Venice** Edwina Biucchi, Simon Pilling, 2002 This guide is designed to provide an insight into the history of Venice and the central role that architecture has played in capturing and reflecting its fortunes *Italian Architecture of the 16th Century* Colin Rowe, Leon Satkowski, 2002-11-22 For the millions who travel to Italy to see the art and architecture of the sixteenth century places that captured Rowe's heart and challenged his fertile mind this book will be a pleasurable read as much as it is a pinnacle of critical scholarship **Managing the Magic of Old Places** Jeremy Wells, 2025-10-14 From 1849 to the early 1980s the development of US historic preservation policy was shaped by fewer than

one hundred elite White men from Europe and America This orthodox preservation doctrine has too long silenced the vibrant experiential relationships between everyday people and their heritage *Managing the Magic of Old Places Crafting Public Policies for People Centered Historic Preservation* offers a radical rethinking of how historic preservation is approached in the United States Author Jeremy C Wells argues for a revolutionary shift in federal preservation policy one that embraces community based participatory practice and draws from environmental psychology to tap into the intangible emotional connections people have with old places Wells highlights the experiential values that laypeople often ascribe to historic environments which are frequently dismissed by expert driven policies He contends that if historic preservation policy continues to ignore these aspects the field will lose relevance as the gap between professionals and the public widens Drawing from interdisciplinary research in the social sciences particularly phenomenology and environmental psychology Wells s vision of public preservation policy centers the lived experiences of communities reinvigorating the field and ensuring that the preservation of historic places resonates with a wider more inclusive audience Wells positions his work within the growing field of critical heritage studies yet his focus on the psychological and emotional aspects of preservation distinguishes it as a unique contribution By placing the needs and experiences of the public at the heart of preservation efforts Wells critiques the historical foundations of US preservation policy while offering a bold agenda for reform
