Miksic, 2011 The book *Philippine Ancestral Gold* situates more than 1 000 gold objects recovered in the Philippines from the 1960s to 1981 within the context of early Southeast Asia Many of these treasures were found in association with tenth to twelfth century Chinese export ceramics Formal similarities with objects from other Southeast Asian cultures affirm regional affinities and inter island trade networks that flourished in the region before regular contact with the Western world Chapter 1 presents the history of the collection and an overview of the objects according to overlapping categories of form function technology and geographic provenance Chapter 2 reassesses the prehistory of Southeast Asia in light of the material evidence provided

by this spectacular collection Chapter 3 examines the meaning and metamorphosis of forms in comparison with related material recovered in the region Chapter 4 situates related finds from the Butuan Surigao Agusan region in light of the rise and fall of different polities in Southeast Asia This extraordinary collection would not exist without the passion and dedication of Leandro and Cecilia Locsin whose vision of preserving for future generations these marvelous objects provides valuable glimpses into the Philippine pre colonial past
