Architecture Of Steven Ehrlich

Oscar Riera Ojeda

Architecture Of Steven Ehrlich:

Steven Ehrlich Houses Steven Ehrlich, 2011-04-12 Residential design forms the core of Steven Ehrlich's award-winning architectural practice. Sixteen houses are presented here, designs characterized by the fusion of powerful modernist forms with the cultural, climatic, and contextual particulars of place. Ehrlich spent six years living, teaching, traveling, and studying indigenous vernacular architecture in North and West Africa. During that time, he was immersed in the visceral power and raw beauty of Architecture Without Architects and dazzled by settings like the luminous Zaria Mosque in Nigeria, the textured hill towns of Tunisia, the maze-like souks of Fez, the protected and intimate courtyard houses of Marrakesh, the gravity-defying raised forts of Ghana, and the interconnected desert cities of Algeria. At the same time, Ehrlich had a deep commitment to modernism with its focus on minimalism, honesty in materials, and rooted connection to the land. Over a thirty-year career, he has brought these two strands together in the houses he has designed in the desert landscape of Southern California and the Southwest. There are commonalities in these houses: generous volumes, visual clarity, large windows, interlocking rooms, protected courtyards, structural honesty, richly textured materials, and a connection to nature. But each home is a new beginning, a chance to learn and to create a spatial experience. **Steven Ehrlich Architects** Steven Ehrlich, 1998 Steven Ehrlich Architects One of an emerging group of important young architects from Southern California, Steven Ehrlich explores the vitality of serene yet kinetic forms and spaces, the richness of texture and materials, and the relationship of architecture to community. The work of Steven Ehrlich Architects is distinctly modern yet informed by the simplicity and directness of vernacular forms and a vigorous sensitivity to the urban conditions of the Pacific Century. Their designs represent the intersection of cultural influences as diverse as traditional African mud construction, the ancient Chinese discipline of feng shui, and California's Latino community. Steven Ehrlich Architects Michael Webb, 2002 Founded in 1970, Steven Ehrlich Architects is a twenty-person architectural team whose office is a converted dance hall in Culver City, California. This award-winning firm is internationally recognized for its distinctive residential designs that extend Los Angeles' tradition of architectural innovation, fusing technology with cultural and environmental sensitivity. This fine volume details Ehrlich's most famous projects and includes floorplans, delightful photographs, and textual accompaniment by renowned architecture and design writer Michael Webb. **SELLING POINTS** Features the best work from this renowned architect, culled from a career spanning decades. Showcases state-of-the-art architectural photography by the finest in the field. Blends some of the architect's original sketches with detailed floor plans and fantastic digital images. 122 col 91 b w Steven Ehrlich, 1995 Architecture like any profession involves the mastery of a systematic body of knowledge and skills acquired through study, reflection, and repetition. But to truly succeed, architecture must also achieve a cultural and aesthetic synthesis that enriches our existence through its art. This volume surveys 19 projects by Santa Monica architect Steven Ehrlich. Like the city of Los Angeles itself, Ehrlich's architecture embraces change and is constantly evolving. Ehrlich subscribes to a

comprehensible culture of Modernism in which tradition and innovation are intricately dependent upon one another with innovation stemming from tradition and tradition based on reinterpretation A dynamic tension runs through Ehrlich's architecture both residential and public a counterpoint between solid primitive surfaces and mass juxtaposed with high tech materials For example the Shatto Recreation Center with its single sweep of galvanized metal roof over an Aztec concrete block box echoes the indigenous structures Ehrlich admired in Africa as it proclaims his interest in the future

Ehrlich Yanai Outside-In Steven Ehrlich, Takashi Yanai, 2019-04-30 A survey of houses designed by Steven Ehrlich and Takashi Yanai of EYRC Architects an award winning firm whose modernist approach is infused with deep engagement with the vernacular Recipient of the 2015 Firm Award from the American Institute of Architects EYRC Architects is internationally recognized for elegant design in a modernist spirit Residential designs are at the heart of the practice which now encompasses commercial and institutional projects Sixteen houses are presented in the book the majority in Southern California and others near San Francisco and Houston These designs are characterized by the fusion of powerful simple forms with the cultural climatic and contextual particulars of place Accompanying the drawings and luxurious color photography are sketches and source material that reveal the genesis of the design as well as the completed project As Ehrlich says Blurring the boundaries between the built and natural environment our designs merge California modernism with vernacular design elements Through details and materials we maximize the home owner's connection with the site and natural surroundings
