*Arcturus* Daniel Speck,2004      *The Future Is in the Stars* Cleveland Carter,2012-07 The origin and study of astronomy is as old as mankind The names of constellations and stars and their meaning are older than mankind God gave Adam the responsibility of naming the animals but God named the stars and constellations and gave them each a meaning God instructed the first humans in these meanings These meanings have been preserved and transmitted from antiquity to the present for us to know and understand Though much has been lost throughout time much has been rediscovered Discover the real meaning of the stars and constellations Discover the past present and future Discover the story of the Gospel in the stars      **The Original Prophecy** Mathew James,2011 There is an amazing story being told by the stars every night They began telling it a long time ago The story was carried down through many generations but it eventually became lost The story that the stars tell has not been told for thousands of years until now The names of the stars in each of the original forty eight constellations all have very special meanings to their names When the original names of the stars are combined together into sentences they begin telling their story Each constellation tells a short story And when all of the constellations are combined together they tell the story written in our night sky This story has not been told for many generations and it is far from any thing most people have ever heard      **The Triumph of Honour** Gordon Kipling,1977      **Romans 1:20** **Seeing the Invisible** Bob Smith,2022-01-15 In about 400 BCE Democritus suggested that all matter is composed of tiny particles called atoms Why then did it take until the nineteenth century for science to verify this Part of the answer is that you can t see anything that small Today through the wonders of modern science we have come to see the invisible and the atomic theory is the basis of nuclear physics Actually we don t see atoms today We see images of them because they re still way too small to be seen Seeing the invisible has always been available to those with eyes to see The natural world is literally filled with the evidences and manifestations of God the Creator He is the One responsible for the intelligent design built into the universe From the power of the force that holds together the electrons protons and neutrons in atoms to the towering majestic beauty of snow covered mountains the Lord the Creator of all has revealed Himself in all the glory of His creation The wonder of Jesus words This is eternal life that they may know God the only true God comes alive in the dual witness of His Word and His creation We can indeed see the invisible when we humbly and with reverent wonder open our eyes to see the world around us      **Gods in the Making and Other Writings** W. Mazzaroth Frances Rolleston, 2010-01-01 In Mazzaroth or The constellations originally published in 1862 19th century English linguist and scholar FRANCES ROLLESTON 1781 1864 presents readers with her theory of the gospel in the stars Rolleston believed that through the ancient names for the stars one could discover the oldest knowledge transmitted from God to man the method of man's redemption and the coming of the Jewish messiah Mentioned in the book of Job the Mazzaroth is generally believed to be the signs of zodiac By passing through each sign a person with a full understanding of the constellations and their meanings can interpret God's message Rolleston painstakingly provides readers with evidence she claims that the signs of the zodiac are an allegory for the New Testament Through Egyptian hieroglyphs Assyrian writings and even the writings in ancient Mexico she constructs a system of symbols and metaphors all of which attest to a singular meaning to the arrangement of the constellations Students of the occult and readers with an interest in astrology will find this an entertaining read An Index to the Holy Scriptures, consisting of an alphabetical arrangement of subjects and names found in the Old and New Testaments, 1840 **The Illustrated Pocket Bible: with ...
