The World Atlas of Language Structures Martin Haspelmath, Matthew S. Dryer, David Gil, Bernard Comrie, 2005-07-21
The World Atlas of Language Structures is a book and CD combination displaying the structural properties of the world's languages. 142 world maps and numerous regional maps all in colour display the geographical distribution of features of pronunciation and grammar such as number of vowels, tone systems, gender plurals, tense, word order, and body part terminology. Each world map shows an average of 400 languages and is accompanied by a fully referenced description of the structural feature in question. The CD provides an interactive electronic version of the database which allows the reader to zoom in on or customize the maps to display bibliographical sources and to establish correlations between features. The book and the CD together provide an indispensable source of information for linguists and others seeking to understand human languages. The Atlas will be especially valuable for linguistic typologists, grammatical theorists, historical and comparative linguists, and for those studying a region such as Africa, Southeast Asia, North America, Australia, and Europe. It will also interest anthropologists and geographers. More than fifty authors from many different countries have collaborated to produce a work that sets new standards in comparative linguistics. No institution involved in language research can afford to be without it.

Aspects of Language and Culture Carol M. Eastman, 1975

The Palgrave Handbook of Language Policies in Africa Esther Mukewa Lisanza, Leonard Muaka, 2024-07-08
This handbook explores language policies and their impacts in Africa, examining the different language policies in each country from pre-colonial to post-colonial times. Most African countries are multilingual, apart from a handful which are said to be quasi-monolingual. The authors in this handbook investigate language policy in education, media, legal courts, government documents, and other public domains, and show how these policies shape learning and delivery of services to the citizens. The volume also pays special attention to the roles assigned to minority languages in Africa, most of which are endangered. The contributions also investigate how these language policies are influenced by the history of colonialism and language attitudes emanating from colonial rule. This handbook will be of interest to a diverse audience of readers, including those interested in African languages, language planning and policy, and African history and education.

Understanding Language Contact Evangelia Adamou, Barbara E. Bullock, Almeida Jacqueline Toribio, 2023-08-29
Understanding Language Contact offers an accessible and empirically grounded introduction to contact linguistics. Rather than taking a traditional focus on the outcomes of language contact, this book takes the novel approach of considering these outcomes as an endpoint of bilingualism and multilingualism. Covering speech production and comprehension, language diffusion across different interactional networks and timeframes, and the historical outcomes of contact-induced language change, this book discusses both how these areas relate to one another and how they correspond to different theoretical fields and methodologies. Draws together concepts and methodological

theoretical advances from the related fields of bilingualism and sociolinguistics to show how these can shed new light on the traditional field of contact linguistics Presents up to date research in a digestible form Includes examples from a wide range of contact languages including Creoles and pidgins Indigenous minority and heritage languages mixed languages and immigrants linguistic practices to illustrate ideas and concepts Features exercises to test students understanding as well as suggestions for further reading to expand knowledge in specific areas Written by three experienced teachers and researchers in this area Understanding Language Contact is key reading for advanced undergraduate and postgraduate students approaching bilingualism and language contact for the first time
