West Coast Modern Zahid Sardar, 2012. Breathtaking home designs that fit perfectly into the unique landscape of the West. Architects and designers are breaking new ground on the West Coast, incorporating tested ideas with modern technologies, materials, and concepts in thrilling and sustainable designs. This collection of more than 25 inspiring residences by such renowned western architects and interior designers as Ricardo and Victor Legorreta, Tom Kundig, Jim Jennings, Steven Ehrlich, Marmol Radziner, Aidlin Darling, Paul Wiseman, Terry Hunziker, and Gary Hutton showcases large and small homes that respond to the deserts, mountains, plains, and coastlines of the West. The sculptural forms and elegant interiors are at once both urban and rural, open to the outdoors, and always contemporary, comfortable, and stylish. Zahid Sardar is a San Francisco editor and writer specializing in architecture, interiors, and design. His work has appeared in *Dwell*, *Interiors*, *Interior Design*, *California Home Design*, *Elle Decor*, *House Beautiful*, and the *San Francisco Chronicle*. He teaches design history at the California College of the Arts and has written several books, including *San Francisco Modern* and *New Garden Design*. Matthew Millman has photographed architecture and interior design in the western United States for the past 20 years. His work has appeared in *Dwell*, *Architectural Digest*, and the *New York Times*, as well as the design titles *Concrete Countertops*, *Concrete at Home*, and *Model Making*.

The Interior Architecture Theory Reader Gregory Marinic, 2018-01-17. *The Interior Architecture Theory Reader* presents a global compilation that collectively and specifically defines interior architecture. Diverse views and comparative resources for interior architecture students, educators, scholars, and practitioners are needed to develop a proper canon for this young discipline. As a theoretical survey of interior architecture, the book examines theory, history, and production to embrace a full range of interior identities in architecture, interior design, digital fabrication, and spatial installation. Authored by leading educators, theorists, and practitioners, fifty chapters refine and expand the discourse surrounding interior architecture.

Construction Drawings and Details for Interiors Rosemary Kilmer, W. Otie Kilmer, 2011-09-13. *Construction Drawings and Details for Interiors* serves as the essential reference for designers preparing interior construction documents, explaining how to do a new construction, remodeling, or installation project. In a highly visual format, the book covers drafting fundamentals and conventions, drawing types, plans, and schedules, and computer-aided design (CAD). With expanded coverage of the preparation and communication of construction documents in digital formats, drawing interior perspectives, and more, the text also serves as an invaluable study reference for the contract documents section of the NCIDQ exam. A new companion Web Site supplies template grids for schedules and contract documents for practice exercises.

Well-Being Design and Frameworks for

Interior Space Minucciani, Valeria, Saglar Onay, Nilüfer, 2020-06-26 Planners architects and designers can have a great impact on living environments and well being Well being is a natural outcome of natural living but it is important to realize that a real and comprehensive understanding of well being can only be achieved through the continuity of the concept to all environmental scales starting from the biosphere and leading towards interiors Since interior space is one of the most important determinants of our everyday experiences its role in well being as a conscious construct needs to be the most important concern of spatial design Well Being Design and Frameworks for Interior Space is a pivotal reference source that proposes a framework including different dimensions of well being and that discusses the importance of each dimension through the examination of past and present living environments in an attempt to figure out the appropriate ways of thinking living and building that can lead to healthier environments and happier people Factors discussed throughout the book include the history of the concept of living well the evolution of well being with age the requirements that affect well being the potentials of certain design approaches for well being the existing environments such as vernacular structures heritage buildings with specific advantages for well being changes in well being requirements interior environments with different functions such as schools and home environments and the intersections of interior design with other design disciplines This book is ideally designed for architects interior designers planners engineers administrators policymakers researchers academicians and students
