Architecture Of Ludwig Wittgenstein:

Architektur Von Ludwig Wittgenstein Bernhard Leitner,1973 **Ludwig Wittgenstein, Architect** Paul Wijdeveld,1994
Between the years 1926 and 1928 the philosopher Ludwig Wittgenstein and the architect Paul Engelmann designed and built a villa for Wittgenstein's elder sister the Viennese society figure Margaret Stonborough. Although Engelmann was an experienced architect and a former pupil of Adolf Loos, the collaboration between the two was dominated by Wittgenstein, who is generally credited with the villa's design. This book describes the events that led to Wittgenstein's temporary status as an architect and reviews his ideas about aesthetics in general and architecture in particular. It also includes an extensive analysis of his quest for functionalism, perfectionism, and elegance as a consequence of truthfulness in thinking and acting. Considerable attention is given to Wittgenstein's friendship with Loos and the role of Loos's pupil Jacques Groag. The text is accompanied by some 300 drawings and sketches by Engelmann and Wittgenstein, virtually all preserved perspectives and plans, and drawings and watercolors of the villa's interior and original furnishing.

The Wittgenstein House Bernhard Leitner,2000-12 Related to author's *Architecture of Ludwig Wittgenstein* 1973 Ludwig Wittgenstein, Architekt Paul Wijdeveld,1994 The power of Ludwig Wittgenstein's genius, which had such a significant effect upon the course of Western philosophy, meant that for him nothing was trivial or of secondary importance. Between 1926 and 1928, in partnership with the architect Paul Engelmann, he designed and built a house in Vienna, the Kundmanngasse, for his sister Margaret Stonborough. Although Engelmann was an experienced architect and a former pupil of Adolf Loos, Wittgenstein dominated the project and is credited with the design, which is described as an elegant and austere example of early Modernism.

Architektur Von Ludwig Wittgenstein Bernhard Leitner,1976-01-01 Wittgenstein's House Nana Last,2008 The book advances the radical proposition that the field in which architecture and philosophy operate includes linguistic and spatial practices. It develops innovative forms of interdisciplinary analyses to demonstrate that the philosophical positions put forth by Wittgenstein's two main works are literally unthinkable outside of their respective conceptions of space: the view from above in the early work and the view from within constructed by the later work.

Mysticism and Architecture Roger Paden,2007 *Mysticism and Architecture* Wittgenstein and the Palais Stonborough is a multi-disciplinary study of the Viennese palais that the philosopher Ludwig Wittgenstein helped design and build for his sister shortly after he abandoned philosophy for more practical activities and during the period that supposedly separates his early from his late philosophy. Weaving together discussions of a number of social, political, and cultural developments that helped to give fin de siècle Vienna its character, including the late modernization of Austrian society, industry, and economy, the

construction of Vienna's Ringstrasse the slow decay of the Hapsburg monarchy and the failure of Austrian liberalism as well as Tolstoy's religiously based ethical views Adolf Loos's critique of architectural ornament Karl Kraus's analysis of Vienna's decadence Kierkegaard's and Nestroy's views on the importance of indirect communication Otto Weininger's theory of the nature and duty of genius Camillo Sitte and Otto Wagner's dispute over good urban form Schopenhauer's aesthetic theories and his Eastern philosophy of life and Russell and Frege's philosophical and logical theories the book presents a philosophical biography of Wittgenstein reminiscent of but substantially different from Janik and Toulmin's Wittgenstein's Vienna This philosophical biography underpins a new interpretation of the house which argues that the house belongs to neither architectural Modernism nor Postmodernism but is instead caught between those two movements This analysis of the house in turn grounds a new interpretation of Wittgenstein's philosophical works that emphasizes their mystical nature and practical purpose Finally this interpretation shows the unity of these works while simultaneously suggesting an underlying flaw namely that they arise from two fundamentally opposed worldviews present in Vienna during Wittgenstein's youth aesthetic modernism and critical modernism

Architecture of Ludwig Wittgenstein; a documentation; with excerpts from the Family Recollections by Hermine Wittgenstein B. Leitner, 1976 **On Bernhard Leitner's The**

Architecture of Ludwig Wittgenstein: a Documentation Alan Plattus, 1974 **Self-understanding in the Tractatus and Wittgenstein's Architecture** Raimundo Henriques, 2024-07-16

Between 1926 and 1928 the philosopher Ludwig Wittgenstein designed a house for his sister in Vienna the Kundmanngasse This book aims to clarify the relation between that house and Wittgenstein's early philosophy The starting point of its main argument is a remark from Diktat für Schlick c 1932 33 in which Wittgenstein proposes an analogy between ornaments and nonsensical sentences The attempt to extract from it an account of the relation between the Kundmanngasse and the Tractatus Logico Philosophicus 1921 leads to the writings of Adolf Loos whose influence Wittgenstein recognized The discussion of Loos's writings suggests that the analogy should be understood not as one between actual ornaments and nonsensical sentences but as one between Loos's and Wittgenstein's uses of these notions So understood it favors the so called resolute reading of the Tractatus and reveals that both Wittgenstein's use of nonsense and Loos's use of ornaments are means to the end of promoting self understanding The book concludes that both the Kundmanngasse and the Tractatus are results of Wittgenstein's efforts at this kind of self understanding These can be construed as ways of acknowledging our humanity which in turn can be seen as a unifying element of Wittgenstein's philosophy

Wittgenstein's House Nana Last, 2022 Wittgenstein's House reads Wittgenstein's his two main philosophical texts Tractatus Logico Philosophicus and Philosophical Investigations in relation to an experience that intervened between them his design and construction of the Stonborough Wittgenstein house in Vienna Arguing that the practice of architecture occupies not just a historical position between Wittgenstein's early and late philosophy but a conceptual position as well the book demonstrates that Wittgenstein's practice of architecture constitutes a fundamental

component in the development of his philosophy of language from its early to late phases The book advances the radical proposition that the field in which architecture and philosophy operate includes linguistic and spatial practices It develops innovative forms of interdisciplinary analyses to demonstrate that the philosophical positions put forth by Wittgenstein's two main works are literally unthinkable outside of their respective conceptions of space the view from above in the early work and the view from within constructed by the late work To examine the manner in which Wittgenstein's practice of architecture insinuated itself into his philosophy the author interweaves in depth analyses of the spatial constructs underpinning the early and late philosophies with conceptual formal and operative discussions of the design of the Stonborough Wittgenstein house Together these discussions reveal how Wittgenstein's practice of architecture engaged philosophical concepts through which it influenced Wittgenstein's philosophy of language At the heart of this approach is the finding that the philosophical concepts at the core of Wittgenstein's philosophy are indeed spatial ones including his concerns with the limits of language the boundary between showing and saying the intricate textual numbering systems he devises the relationship between the interiority of the subject and the publicness of language and the formative principle of family resemblance

Die Rettung des Wittgenstein Hauses in Wien vor dem Abbruch Bernhard Leitner, 2013 The demolition of the Wittgenstein House had been approved by the landmark preservation office the City of Vienna in June 1971 It was only stopped at the last minute Bernhard Leitner collected unique photographs as well as facsimiles of documents that illustrate the incredible odyssey that ended in the rescue of this architectural jewel

Architecture Language Critique, 2021-10-01 Paul Engelmann was Adolf Loos's favorite pupil private secretary to Karl Kraus and Ludwig Wittgenstein's most important interlocutor in the years between 1916 and 1928 as well as his partner in building the Stonborough House Thus it was that the trenchant critique of modernity associated with Wittgenstein's Vienna originated around Paul Engelmann The present volume of essays from an international symposium in Aarhus Denmark in 1999 offers an interdisciplinary perspective on issues bearing upon architecture language and cultural criticism as they relate to the life's work of Paul Engelmann
