Archives Of Memory:

Archives, Documentation, and Institutions of Social Memory Francis Xavier Blouin, William G. Rosenberg, 2006-03-31 As sites of documentary preservation rooted in various national and social contexts artifacts of culture and places of uncovering archives provide tangible evidence of memory for individuals communities and states as well as defining memory institutionally within prevailing political systems and cultural norms By assigning the prerogatives of record keeper to the archivist whose acquisition policies finding aids and various institutionalized predilections mediate between scholarship and information archives produce knowledge legitimize political systems and construct identities Far from being mere repositories of data archives actually embody the fragments of culture that endure as signifiers of who we are and why The essays in Archives Documentation and Institutions of Social Memory conceive of archives not simply as historical repositories but as a complex of structures processes and epistemologies situated at a critical point of the intersection between scholarship cultural practices politics and technologies

Archives, Documentation, and Institutions of Social Memory Francis Xavier Blouin, William G. Rosenberg, 2007-08-02 Essays exploring the importance of archives as artifacts of culture

Loss and Genocide in the Archives Martine Hawkes, 2016 Current official responses to genocide are largely situated within archives of various descriptions museums courts libraries memoirs and memorials Through particular readings of the archive Martine Hawkes examines genocide as it is understood represented and responded to She asks what is expected of the archive by curators users and genocide survivors and considers what role archives play in informing the ethics of how genocide is approached and remembered This book argues that the archive is constructed and gathered from outside and after the event The archive in attempting to contain comprehend and conclude the event of genocide betrays a desire to reduce histories to limits reason and unifiers Here the archive privileges a quantitative and definitional reading engendering a limited and codified response to genocide In this reading of genocide much is lost and unknowable In framing an ethics of approach six stories told initially as stand alone narratives are presented These accounts then trail recursive loops within the arguments to provide a reminder of the infinite nature of the approach of genocide This book thus presents the ashes of the event naming that which eludes and is elided from the archive and archival practice It sounds a crisis of response to genocide calling instead for hesitation and uncertainty to inform our otherwise enclosing limiting and reductively certain responses Provided by publisher

Digital Memory and the Archive Wolfgang Ernst, 2012-12-20 In the popular imagination archives are remote largely obsolete institutions either antiquated inevitably dusty libraries or sinister repositories of personal secrets maintained by police states Yet the archive is now a ubiquitous feature of digital life Rather than being deleted e mails and other computer files are archived Media software and cloud storage allow for the instantaneous cataloging and preservation of data from music photographs and videos to personal information gathered by social media sites In this digital landscape the archival oriented media theories of Wolfgang Ernst are particularly relevant

Digital Memory and the Archive the first English language collection of the German media theorist s work brings together essays that present Ernst s controversial materialist approach to media theory and history His insights are central to the emerging field of media archaeology which uncovers the role of specific technologies and mechanisms rather than content in shaping contemporary culture and society Ernst s interrelated ideas on the archive machine time and microtemporality and the new regimes of memory offer a new perspective on both current digital culture and the infrastructure of media historical knowledge For Ernst different forms of media systems from library catalogs to sound recordings have influenced the content and understanding of the archive and other institutions of memory At the same time digital archiving has become a contested site that is highly resistant to curation thus complicating the creation and preservation of cultural memory and history

Archives Power Randall C. Jimerson,2009 Argues to answer some of the complex social political professional and ethical questions that are at the heart of the roles and identity of the archive professional their significance in modern society and their impact on human history and culture Encyclopedia of Archival Writers, 1515 - 2015 Luciana Duranti,Patricia C. Franks,2019-04-26 The Encyclopedia of Archival Writers 1515 2015 is a reference work that includes the profiles of authors of literature about records and archives in the Western world who have shaped the records and archives field over a span of 500 years The 144 archival writers from 13 countries who are included in this volume were selected by an international advisory board on the basis of their impact on the records and archives profession and discipline the presence of their publications in educational programs reading lists and the frequency of reference to their work Among the writers included in this volume are Albertino Barisono of Padua 1587 1667 Sir Hilary Jenkinson of England 1882 1961 Adolf Brenneke of Germany 1875 1946 Theodore R Schellenberg of the United States 1903 1970 Robert Henri Bautier of France 1922 2010 Terry Cook of Canada 1947 2014 Vicenta Cort s Alonso of Spain 1925 Eric Ketelaar of the Netherlands 1944 Aurelio Tanodi of Argentina 1914 2011 Ian Maclean of Australia 1919 2003 and Verne Harris of South Africa 1958 Arranged in alphabetical order each entry includes a biography intellectual contributions and a brief essential bibliography A total of 113 educators professionals and students in the records and archives field 55 of whom are also profiled in this Encyclopedia contributed to this volume There is no other book in any language that focuses on the life and work of authors of records and archives literature In fact there is not easily available information on such writers Thus most entries involved quite a bit of research on dead writers and interviews with the living ones Several living writers supported this work by accepting to author their own entry **Encyclopedia of Archival Science** Luciana Duranti,Patricia C. Franks,2015-06-17 Here is the first ever comprehensive guide to archival concepts principles and practices Encyclopedia of Archival Science features 154 entries which address every aspect of archival professional knowledge These entries range from traditional ideas like appraisal and provenance to today s challenges digitization and digital preservation They present the thoughts of leading luminaries like Ernst Posner Margaret Cross Norton and Philip Brooks as well as those of contemporary authors and rising scholars

Cultural Memories of Nonviolent Struggles A. Reading,T. Katriel,2015-06-09 If societies have only memories of war of cruelty of violence then why are we called humankind This book marks a new trajectory in Memory Studies by examining cultural memories of nonviolent struggles from ten countries The book reminds us of the enduring cultural scripts for human agency solidarity resilience and human kindness

Urgent Archives Michelle Caswell,2021-05-19 Urgent Archives argues that archivists can and should do more to disrupt white supremacy and hetero patriarchy beyond the standard liberal archival solutions of more diverse collecting and more inclusive description Grounded in the emerging field of critical archival studies this book uncovers how dominant western archival theories and practices are oppressive by design while looking toward the the radical politics of community archives to envision new liberatory theories and practices Based on more than a decade of ethnography at community archives sites including the South Asian American Digital Archive SAADA the book explores how members of minoritized communities activate records to build solidarities across and within communities trouble linear progress narratives and disrupt cycles of oppression Caswell explores the temporal representational and material aspects of liberatory memory work arguing that archival disruptions in time and space should be neither about the past nor the future but about the liberatory affects and effects of memory work in the present Urgent Archives extends the theoretical range of critical archival studies and provides a new framework for archivists looking to transform their practices The book should also be of interest to scholars of archival studies museum studies public history memory studies gender and ethnic studies and digital humanities

[Archives of Memory](#) Alice M. Hoffman,Howard S. Hoffman,2014-07-11 Tell me about the war these words launched a ten year project in oral history by a husband and wife team Howard Hoffman fought in World

War II from Cassino to the Elbe as a mortar crewman and a forward observer His war experiences are of intrinsic interest to readers who seek a foot soldier s view of those historic events But the principal purpose of this study was to explore the bounds of memory to gauge its accuracy and its stability over time and to determine the effects of various efforts to enhance it Alice Hoffman a historian initiated the study because she recognized the critical role of memory in gathering oral history Howard Hoffman the subject is an experimental psychologist Alice s tape recorded interviews with her husband over a period of ten years are the basic material of the study which compares the events as recounted in the first phase of the interviews with later accounts of the same experiences and with the written records of his company as well as the memories of fellow soldiers and the evidence of photographs and other documents This engrossing story of World War II breaks new ground for practitioners of oral history The Hoffmans findings indicate that a subset of human memory exists that is so permanent and resistant to change that it can properly be labeled archival In addition to describing some of the circumstances under which archival memories are formed the Hoffmans describe the conditions that were found to influence their storage and retrieval
