Tourism Case Studies Latin America Region

Thiago Allis, Sandro Carnicelli, 2024-11-21 Latin America is a complex mosaic of nations people and landscapes with unique cultural scenic and economic resources but with no more than 6% of global international tourist arrivals World Bank 2019 The region hosts several top international destinations such as the Caribbean islands and the sacred city of the Incas Machu Picchu Peru Cities like S o Paulo and Mexico City are internationally known for their Meetings Incentives Conferences and Exhibitions MICE sector Galapagos Ecuador and Fernando de Noronha Brazil are areas of significant ecological importance However even if some of the destinations are well known internationally the region is still seen as an untouched source for tourism at global and regional scales Moreover the region is still underrepresented in international tourism literature and content for pedagogical and educational purposes still limited This gap needs to be filled to help inform tourism developments and to better educate the next generation This can help shift students and practitioners away from an over dependence on models and ideas developed and tested in different social and cultural settings that may not be appropriate for a Latin American context Therefore this book aims to bring together researchers students practitioners and other agents involved with research teaching and the operation of tourism to share their research and work experiences in Latin America in the form of case studies focusing on real world examples
