## Arguments Against Secular Culture:

**Arguments Against Secular Culture** Robert Miller, 1995 Takes the view that the dominant scientific materialist outlook has an incredibly narrow basis and ignores the most important aspects of human experience **The Christian Case against Contraception** Bryan C. Hodge, 2010-01-01 Evangelicals often give little thought to the morality of contraception but when they do serious studies of the subject are scarce if not non-existent The Christian Case against Contraception seeks to fill this gap by evaluating the practice not from personal preference or mere experience but from the four major theological disciplines of Christianity Historical Biblical Systematic and Practical Theology and Ethics The book begins with a contrastive analysis between secular and ecclesiastical culture and thought concerning the subject of contraception and the purpose of the sexual act The claims of the Church that contraception is morally unacceptable is examined further as the book takes the reader on a journey through biblical systematic and practical arguments which establish the foundations of the Historic Church's claim Opposing arguments are evaluated as to their strength and validity In fact Hodge stirs the debate with a challenge that he has yet to see Christians set forth a valid biblical argument in support of contraceptive practices For the reader seeking to place procreative ethics under the lordship of Christ The Christian Case against Contraception offers a bold and clear way forward *Argument and Change in World Politics* Neta Crawford, 2002-07-25 Arguments have consequences in world politics that are as real as the military forces of states or the balance of power among them Neta Crawford proposes a theory of argument in world politics which focuses on the role of ethical arguments in fostering changes in long standing practices She examines five hundred years of history analyzing the role of ethical arguments in colonialism the abolition of slavery and forced labour and decolonization Pointing out that decolonization is the biggest change in world politics in the last five hundred years the author examines ethical arguments from the sixteenth century justifying Spanish conquest of the Americas and from the twentieth century over the fate of Southern Africa The book also offers a prescriptive analysis of how ethical arguments could be deployed to deal with the problem of humanitarian intervention Co-winner of the APSA Jervis Schroeder Prize for the best book on international history and politics *The Interpreter*, 1907 **Best Practice & Research**, 2007 **The Vocation of the Laity to Evangelization** Robert W. Oliver, 1997 **NCEA Bulletin** National Catholic Educational Association, 1921 *The Catholic Encyclopedia* Charles George Herbermann, Edward Aloysius Pace, Condé Benoist Pallen, Thomas Joseph Shahan, John Joseph Wynne, Andrew Alphonsus MacErlean, 1912 **Secular Review**, 1877 **Theology**, 1996 Report of proceedings [afterw.] Minutes and proceedings [afterw.] Proceedings of the first (-fifteenth) General Presbyterian council [afterw.] general council of the Presbyterian alliance [afterw.] Alliance of the reformed Churches holding the Presbyterian system World alliance of reformed Churches, 1877 *The Nation*, 1908 **Seasons in Theology** C. W. Du Toit, 2007 The Battle for the Soul R. Crawford, 2011-03-15 Do we all possess a soul If so what is it Can it be defined Crawford argues that it is important that we have a soul because if it is immortal then we can

hope for life after death But some religions insist that it is the resurrection of the body which is vital How can the belief in an immortal soul and resurrection of the body be reconciled Crawford attempts to answer this question in the context of six world religions and the science and technology of twenty first century society *Middle East International* ,1995 *Human Diversity and the Culture Wars* Philip E. Devine,1996-11-30 Raising the war on political correctness to a new and higher intellectual level Philip Devine sheds fresh light on the whole question of cultural standards and the fashionable notion of multiculturalism While acknowledging the diversity of ways of life and the differing belief systems that arise from and justify those ways of life the author attacks the current exploitation of diversity to justify a militantly intolerant relativism His wide ranging and erudite work connects cultural issues to our real world existence as biological and historical beings pulling together ideas of bioethics education and the structure and purpose of families This work will be of interest to those fighting the culture wars across the humanities and social and behavioral sciences *The Origins of the Armenian Alphabet and Literature* Krikor H. Maksoudian,2006 Cultural Traditions and the Idea of Secularization Bhuvan Chandel, Ioanna Kuçuradi,1998 Presents 13 Out Of 19 Papers Presented At A Symposium An Cultural Tradition S And The Idea Of Secularizations Papers Deals With Different Facets Of The Problem And In The Context Of Different Problems In The Countries To Which The Contributors Belonged Cover Slightly Rubbed And Soiled Colonial Africa, 1885-1939 Toyin Falola,2000 Along with Africa Volume 1 and Volume 2 Volume 3 Colonial Africa 1885 1939 adopts a new perspective on African history and culture surveying the wide array of societies and states that have existed on the African continent and introducing readers to the diversity of African experiences and cultural expressions Toyin Falola has brought together African studies professors from a variety of schools and settings Writing from their individual areas of expertise these authors work together to break general stereotypes about Africa focusing instead on the substantive issues of the African past from an African perspective Volume 1 African History Before 1885 introduces students to the various precolonial histories of Africa Volume 2 African Cultures and Societies Before 1885 provides a broad view of precolonial experiences and expressions in Africa Volume 3 Colonial Africa 1885 1939 details the experiences and ramifications of the colonization process throughout the African continent Many different aspects are discussed including the changes in political and economic systems and impacts on education religion and the environment Also included are detailed regional histories of various geographical areas The texts are richly illustrated and include maps to make cultural and historical movements clearer as well as suggestions for further reading that will help readers broaden their own particular interests Africa provides new perspectives that challenge the accepted ways of studying Africa flexibility for instructors to structure courses and encouragement for readers who are eager to learn about the diversity of the African experience **Bulletin** National Catholic Educational Association,1920 Nov issue includes Proceedings of the annual meeting
