Crossings Nietzsche And The Space Of Tragedy:

Crossings John Sallis, 1991-04-09 Boldly contesting recent scholarship Sallis argues that The Birth of Tragedy is a rethinking of art at the limit of metaphysics His close reading focuses on the complexity of the Apollinian Dionysian dyad and on the crossing of these basic art impulses in tragedy Sallis effectively calls into question some commonly accepted and simplistic ideas about Nietzsche's early thinking and its debt to Schopenhauer and proposes alternatives that are worth considering Richard Schacht Times Literary Supplement

Cosmological Aesthetics through the Kantian Sublime and Nietzschean Dionysian Erman Kaplama, 2013-12-12 Erman Kaplama explores the principle of transition bergang from metaphysics to physics developed by Kant in his unfinished magnum opus Opus Postumum Drawing on the Heraclitean logos and Kant's notions of sense intuition Anschauung and reflective judgment Kaplama interprets transition as an aesthetic principle He revises the idea of nature phusis as the principle of motion referring to Heraclitus cosmology as well as Heidegger's and Nietzsche's lectures on the pre-Socratics Kaplama compares the Kantian sublime and Nietzschean Dionysian as aesthetic theories representing the transition from the sensible to supersensible and as cosmological theories that consider human nature ethos as an extension of nature In light of such Nietzschean notions as the eternal recurrence and will to power the Dionysian is shown to trigger the transition by which nature and art are redefined Finally Cosmological Aesthetics employs the principles of transition and motion to analyze Van Gogh's Starry Night in an excursus

The Thought of John Sallis Bernard Freyberg, 2012-07-25 John Sallis is one of America's preeminent and most original contemporary philosophers The absence until now of a comprehensive work on Sallis has constituted a glaring oversight in philosophical scholarship The Thought of John Sallis is both an introduction for students new to his work and a valuable resource for scholars needing a systematic consideration of Sallis's wide-ranging thought Sallis's work possesses an intrinsic power and originality as well as deep interpretive insight This book is a descriptive and critical journey through his thought providing an overview for readers who wish to gain a sense of its sweep along with discrete sections on particular philosophical disciplines for readers whose interests are more specific It grapples with the challenges Sallis's thought presents making them explicit and opening them up to further consideration And it attempts to locate his thought within both contemporary continental philosophy and philosophy as a whole Essential for any student of continental philosophy The Thought of John Sallis expounds on his work in a manner that increases access honors its depth and opens up unexplored possibilities for philosophy

Nietzsche's Therapy Michael Ure, 2008-01-01 Nietzsche's Therapy explores the ethics of self-cultivation that Nietzsche forged in his middle works

Beneath the Veil of the Strange Verses Jeremiah L. Alberg, 2013-01-01 Jeremiah Alberg's fascinating book explores a phenomenon almost every news reader has experienced the curious tendency to skim over dispatches from war zones political battlefields and economic centers only to be drawn in by headlines announcing a late-breaking scandal Rationally we would agree that the former are of more significance and

importance but they do not pique our curiosity in quite the same way The affective reaction to scandal is one both of interest and of embarrassment or anger at the interest The reader is at the same time attracted to and repulsed by it Beneath the Veil of the Strange Verses describes the roots out of which this conflicted desire grows and it explores how this desire mirrors the violence that undergirds the scandal itself The book shows how readers seem to be confronted with a stark choice either turn away from scandal completely or become enthralled and thus trapped by it Using examples from philosophy literature and the Bible Alberg leads the reader on a road out of this false dichotomy By its nature the author argues scandal is the basis of our reading it is the source of the obstacles that prevent us from understanding what we read and of the bridges that lead to a deeper grasp of the truth

Playing with Memories David Church, 2009-09-15 Playing with Memories is the first collection of scholarly essays on the work of internationally acclaimed Canadian filmmaker Guy Maddin It offers extensive perspectives on his career to date from the early experimentation of *The Dead Father* 1986 to the intensely intimate revelations of *My Winnipeg* 2007 Featuring new and updated essays from American Canadian and Australian scholars collaborators and critics as well as an in depth interview with Maddin this collection explores the aesthetics and politics behind Maddin's work firmly situating his films within ongoing cultural debates about postmodernism genre and national identity

Platonic Legacies John Sallis, 2012-02-01 In *Platonic Legacies* John Sallis addresses certain archaic or exorbitant moments in Platonism His concern is to expose such moments as those expressed in the Platonic phrase beyond being and in the enigmatic word chora Thus he ventures to renew chorology and to bring it to bear most directly on Platonic political discourse and Plotinian hyperontology More broadly he shows what profound significance these most archaic moments of Platonism which remained largely unheeded in the history of philosophy have for contemporary discussions of spacings of utopian politics of the nature of nature and of the relation between philosophy and tragedy Thus addressing Platonism in its bearing on contemporary philosophy *Platonic Legacies* engages in turn a series of philosophers ranging from Nietzsche Heidegger and Arendt to certain contemporary American Continental philosophers These engagements focus on the way in which these recent and contemporary philosophers take up the Platonic legacies in their own thought and on the way in which the exposure of an archaic Platonism can redirect or supplement what they have accomplished

Spaces and Crossings Rita Wilson, Carlotta von Maltzan, 2001 This collection of essays includes a variety of approaches to different interpretations of space Some deal with aspects of post colonialism mapping and identity formation while others grapple with the positionality of in between as well as with issues of multiculturalism and intertextuality The spaces of art beliefs and institutions are examined as are the intellectual and artistic activities involved in articulating and defining space It is a book of tendencies which gives some indication of the new work being done in South Africa as well as in the broader global context and reflects different moments of conflict and negotiation within the social relations of different societies from pre apartheid South Africa to the present The essays chosen for this volume broach the fantastic and sexual dimensions of cultural spaces and cultural production issues of

marginality and power hybridity gender identity ideology and technology *The Kantianism of Hegel and Nietzsche* Robert L. Zimmerman,2005 Seeks to question the conventional way historians have treated the relationship between Kant and Hegel and Kant and Nietzsche This text suggests a different way to understand these philosophers by showing that their relationship is one of renovation Hegel and Nietzsche both keep parts of Kant while rejecting other parts **Nietzsche, the Battle of Interpretations and the Art of Exegesis** Christoph Cox,1992 *Nietzsche's Zarathustra and Political Thought* James D. Stewart,2002 Dr Stewart identifies nausea as the central metaphor of Zarathustra a nausea that accompanies a contempt for mediocrity for democratic systems indeed for bourgeois existence in general but it is a nausea that more centrally accompanies Nietzsche's perspectivism Thus it is the nausea that occurs in the face of the chaotic and indeterminate character of the universe and of human existence *Resentment and the "feminine" in Nietzsche's Politico-aesthetics* Caroline Joan Picart,1999 Nietzsche's remarks about women and femininity have generated a great deal of debate among philosophers some seeing them as ineradicably misogynist others interpreting them more favorably as ironic and potentially useful for modern feminism In this study Kay Picart uses a genealogical approach to track the way Nietzsche's initial use of feminine mythological figures as symbols for modernity's regenerative powers gradually gives way to an increasingly misogynistic politics resulting in the silencing and emasculation of his earlier configurations of the feminine While other scholars have focused on classifying the degree of offensiveness of Nietzsche's ambivalent and developing misogyny Picart examines what this misogyny means for his political philosophy as a whole Picart successfully shows how Nietzsche's increasingly derogatory treatment of the feminine in his post-Zarathustran works is closely tied to his growing resentment over his inability to revive a decadent modernity **Review of Existential Psychology & Psychiatry** ,1986

Review of Existential Psychology and Psychiatry ,1993 *Time and the Image* Carolyn Bailey Gill,2000 This new collection of essays questions the old orthodoxies of the image as a formal object The contributors take note of the new condition of the image and its intersection with time and suggest new ways of configuring the relationship between them Ranging widely over philosophy psychoanalysis and literary studies as well as art history and media studies the essays include studies of photography the idea of a still as bound to a structure of the past haunting the present sculpture for example unpacking a famous piece such as the Laocoon into distinct layers of temporality painting for example through an illuminating discussion of Manet and a discussion of the merits of a Freudian understanding of blocked or repressed memory against the Proustian Leibniz model of memory as a crystal image *Justice Miscarried* Costas Douzinas,Ronnie Warrington,1994 This new study seeks to reopen the law ethics debate from a postmodern perspective and calls for a radical reassessment of the relationship between law and morality *Classical Views* ,1991 *American Book Publishing Record* ,1991 *The Nietzsche Disappointment* Nickolas Pappas,2005 The Nietzsche Disappointment examines the workings of time in Nietzsche's philosophy It asks how he explains the great changes that according to him turned the past into the

present catastrophic transformations of morality language human nature or that may yet make a desirable future out of this sorry present age The question is essential Nietzsche attacks morality by appeal to the past and future Where philosophy had fancied itself eternal imagining all times to be more or less like the present Nietzsche sets the subject in motion with his attention to abrupt utterly consequential events Everything eternal becomes temporal But after whetting his readers appetites for past and future cataclysms Nietzsche makes them seem impossible Birth of Tragedy raises the question of where Socrates could have come from and then can't answer In Beyond Good and Evil Nietzsche pins his hopes on the birth of future philosophers even as he shows how many obstacles prevent their being born On the Genealogy of Morals posits occurrences like the triumph of slave morality that violate Nietzsche's own claims about what can happen What stops Nietzsche from telling the very stories that he wanted philosophy to attend to Perhaps that question can't be answered without considering how Nietzsche understands his own place in the flow of time considering for instance his wish to be an original philosopher The Nietzsche Disappointment is both critical and sympathetic It interrogates Nietzsche in terms that he should understand it closes by asking whether there is some way of being critical that is also self-critical For then a good reading may free the reader from Nietzsche's person while continuing to confront the challenge he bequeathed to philosophy
