Memorialization of Louis IX of France, 1297- 1350 Marianne Cecilia Gaposchkin,2001 Speculum Sermonis Georgiana Donavin,Cary J. Nederman,Richard J. Utz,2004 This anthology of essays Speculum Sermonis reveals how sermons impact upon a range of disciplines and how the methodologies of different disciplines inform sermons **War Sermons** Gilles Teulié,Laurence Lux-Sterritt,2009 This collection of essays ponders upon the intricate relations between the military and the spiritual from the Middle Ages to the present day In order to analyse human attitudes towards conflicts it is necessary to dwell upon the nebulous area where the religious and political spheres interweave so tightly that they become virtually impossible to distinguish Indeed despite remaining the responsibility of the state the political decision to go to war depends heavily on some spiritual underpinning since without a moral ethical or religious justification it stands for gratuitous violence and is often equated with aggression Situated as they are at the intersection of religious and political awareness war sermons are an invaluable source of information regarding societies in times of conflict Indeed whether favourable or hostile to the waging of war preachers participated in the edification of parishioners TM opinion The writing delivering or reading of sermons shaped the mental process of peoples who sought their ministers TM moral and spiritual guidance in times of crisis This collection of essays offers contributions to the renewed debate on the function of war its representations and its rhetoric as generators of identity **"Di Himels Rote"** Mary Fischer,1991 Eclipse of Empire? Chris Jones,2007 Through an innovative and wide ranging exploration this book examines the reality behind the assumption that the idea of a universal ruler became increasingly irrelevant in late medieval Europe Focusing on France in the century before the outbreak of the Hundred Years War it explores attitudes towards the contemporary institution of the western Empire its rulers and its place in the world Historians have tended to assume that there was little place for a universal Empire and its would be rulers in late medieval thought Pointing to the rapid decline in the fortunes of the Empire after the death of the Emperor Frederick II the rediscovery of Aristotle s Politics by western Europeans and the growing confidence and burgeoning bureaucracy of the kings of France and England it is often argued that the claims to universal domination of men like the Emperor Henry VII or indeed of popes like Boniface VIII were becoming increasingly anachronistic not to say a little ridiculous Perceptions of the Empire undoubtedly changed in this period Yet whether it was in the cloisters of Saint Denis the pamphlets of Pierre Dubois or even the thought of Charles d Anjou the first Angevin king of Sicily this book argues that the Empire and its ruler still had an important indeed unique role to play in a properly ordered Christian society Chris Jones grew up in the Middle East before reading history at Durham He now lives in New Zealand where he holds a lectureship in History at the University of Canterbury Christchurch Humberti de Romanis Legendae Sancti Dominici Humbert (de Romans),2008 **Elenchus of Biblica** ,2004 **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** ,2000 **Journal of Feminist Studies in Religion** ,2004 The Muslim World Book Review ,2001 A History of African Higher Education from Antiquity to the Present Y. G-M Lulat,2005-08-30

Until recently Eurocentrist history professors taught that it was the Europeans who brought higher education to the African continent. While the Europeans have indeed influenced African education in recent times, there is some vital information that most history books leave out: for centuries before the arrival of the Europeans, the vast and advanced native African civilizations already had sophisticated universities and other institutions of higher education to boast about. This book is an attempt to fill the chasm in today's literature regarding this topic. It will be of interest to those researching the accurate, non-Euro-biased history of Africa.
