Csf Analysis In Multiple Sclerosis:

Cerebrospinal Fluid Analysis in Multiple Sclerosis Paolo Livrea, E.J. Thompson, Maria Trojano, 2012-12-06 In the spring of 1993 a meeting of the European Charcot Foundation was held in Bari as it was quite clear that there was a renaissance of Italian interest in cerebro spinal fluid Two of the influential figures with a long standing commitment to this field were Professor Paolo Livrea and Dr Maria Trojano At this meeting we considered the possibility of collecting together the various papers which had been presented however the idea evolved further to the present volume which incorporates a broader view This starts with the anatomical approach including neuro pathology CSF cells and MRI correlations It also includes virology physiology of the blood CSF barrier and the immunology of intrathecal responses It further considers the relevance of the CSF parameters to therapy Finally the importance of quality assurance and handling of the precious fluid is discussed The original plan was to have the book published in Italian but we are grateful to the publishers for allowing English text in order to have a wider international audience As is fate of any book interest in this area has been accelerated considerably nevertheless we hope this provides a summary from a multi disciplinary point of view From a purely personal point of view it certainly reflects the warmth of feeling which was evident at the meeting and which led to the toast
