Cuban Crisis Of 1962:

The Cuban Missile Crisis of 1962 William Medland, 1988-05-16 Medland's book is very timely Naval War College This caveat notwithstanding William Medland proves it can be done Indeed his *The Cuban Missile Crisis of 1962* is so good that he makes the task look easy William Medland's *The Cuban Missile Crisis of 1962* is outstanding and necessary to a good understanding of the missile crisis *The Daily Mississippian* A wealth of books exist on the Cuban missile crisis and its aftermath but none examines the different historiographical views of what the crisis meant Medland surveys various interpretations of the confrontation approaching the crisis from national disciplinary and decision making perspectives Although the Soviets reasons for placing missiles in Cuba in 1962 may never be completely known Medland explores several possible motives taking into account views of participants observers and right and left wing groups The author also discusses the consequences of the confrontation As he demonstrates the end of the crisis brought mixed and surprising results *The Missile Crisis of October 1962* Lester H. Brune, 1985 **The Cuban Missile Crisis, 1962**, 1990 *The Brink* David Detzer, 1979 An account of the 1962 confrontation between the United States and Russia caused by the installation of Russian missiles in Cuba **The "Cuban Crisis" of 1962** David L. Larson, 1986 *The Cuban Crisis Of 1962* David Lloyd Larson, Dayton D. McKean, 2012-07 Contributing Authors Include John F Kennedy Everett McKinley Dirksen Charles A Halleck And Many Others **Missiles in Cuba** Mark J. White, 1998-02-01 For many years historians of the Cuban missile crisis have concentrated on those thirteen days in October 1962 when the world teetered on the brink of nuclear war Mark White's study adds an equally intense scrutiny of the causes and consequences of the crisis *Missiles in Cuba* is based on up to date scholarship as well as Mr White's own findings in National Security Archive materials Kennedy Library tapes of ExComm meetings and correspondence between Soviet officials in Washington and Havana all newly released His more rounded picture gives us a much clearer understanding of the policy strategies pursued by the United States and the Soviet Union and to a lesser extent Cuba that brought on the crisis His almost hour by hour account of the confrontation itself also destroys some venerable myths such as the unique initiatives attributed to Robert Kennedy And his assessment of the consequences of the crisis points to salutary effects on Soviet American relation and on U S nuclear defense strategy but questionable influences on Soviet defense spending and on Washington's perception of its talents for crisis management later tested in Vietnam **The Cuban Missile Crisis, 1962**, 2000 Presents an integrated comprehensive record of U S decisionmaking during the most dangerous U S Soviet confrontation in the nuclear era Some 3 400 unique records relevant to the crisis totalling approximately 17 500 pages are reproduced Much of the documentation focuses on U S decisionmaking during what Robert Kennedy called the Thirteen Days of the missile crisis from McGeorge Bundy's October 16 1962 briefing of President Kennedy on the discovery of Soviet missiles in Cuba to Nikita Khrushchev's October 28 decision to withdraw the weapons The numerous intelligence reports diplomatic cables political analyses military situation reports and meeting

minutes included in the set portray both the deliberative process and the execution of critical decisions made by the Kennedy administration during the crisis

October 1962 Tomás Díez Acosta, 2002 In October 1962 Washington pushed the world to the edge of nuclear war Here for the first time the full story of that historic moment is told from the perspective of the Cuban people whose determination to defend their sovereignty and their socialist revolution blocked U S plans for a military assault and saved humanity from the consequences of a nuclear holocaust [The Cuban Missile Crisis, 1962](#) Tim Coates, 2001 One of a series of titles in the Uncovered Editions series official papers detailing historic events which have not previously been available in popular form this is a collection of official documentation relating to the Cuban missile crisis of October 1962 [The Making of a Missile Crisis, October 1962](#) Herbert Samuel Dinerstein, 1978 Contains primary source material

The Cuba-Caribbean Missile Crisis of October 1962 Lester H. Brune, 1996 [The Cuban Missile Crisis](#) Phil Carradice, 2017-10-30 This gripping Cold War history chronicles the events that brought the world to the edge of nuclear war and the political drama that averted disaster The Cuban Missile Crisis of 1962 was the closest the world has yet come to nuclear war a time when the hands of the Doomsday Clock really did inch towards the witching hour of midnight By placing nuclear missiles on the Caribbean island of Cuba where potentially they were able to threaten the eastern seaboard of the USA Nikita Khrushchev and the Soviet Union escalated the Cold War to a level that everyone feared but had never previously thought possible In a desperate and dangerous game of brinkmanship for thirteen nerve wracking days Premier Khrushchev and President Kennedy held the fate of the world in their hands Kennedy in particular wrestled with a range of options allow the missiles to stay launch an air strike on the sites or invade Cuba In the end he did none of these But the solution to one of the deadliest dilemmas of the twentieth century proved to be a brave and dramatic moment in human history

An International History of the Cuban Missile Crisis David Gioe, Len Scott, Christopher Andrew, 2014-06-05 This edited volume addresses the main lessons and legacies of the 1962 Cuban Missile Crisis from a global perspective Despite the discoveries of recent research there is still much more to be revealed about the handling of nuclear weapons before and during the Cuban Missile Crisis CMC Featuring contributions from a number of eminent international scholars of nuclear history intelligence espionage political science and Cold War studies An International History of the Cuban Missile Crisis reviews and reflects on one of the critical moments of the Cold War focussing on three key areas First the volume highlights the importance of memory as an essential foundation of historical understanding and demonstrates how events that rely only on historical records can provide misleading accounts This focus on memory extends the scope of the existing literature by exploring hitherto neglected aspects of the CMC including an analysis of the operational aspects of Bomber Command activity explored through recollections of the aircrews that challenge accounts based on official records The editors then go on to explore

aspects of intelligence whose achievements and failings have increasingly been recognised to be of central importance to the origins dynamics and outcomes of the missile crisis Studies of hitherto neglected organisations such as the US Defense Intelligence Agency DIA and the British Joint Intelligence Committee JIC both extend our understanding of British and American intelligence machinery in this period and enrich our understanding of key episodes and assessments in the missile crisis Finally the book explores the risk of nuclear war and looks at how close we came to nuclear conflict The risk of inadvertent use of nuclear weapons is evaluated and a new proposed framework for the analysis of nuclear risk put forward This volume will be of much interest to students of intelligence studies international history foreign policy security studies and IR in general

The Cuban Missile Crisis, 1962 Laurence Chang, Peter Kornbluh, National Security Archive (U.S.), 1998 Employs recently released documents to reveal how close the world came to nuclear destruction and challenge the official history of the event as a model of crisis management

The Brink David Detzer, 1979 An account of the 1962 confrontation between the United States and Russia caused by the installation of Russian missiles in Cuba
