*Crossings; Stories* Stephen Minot, 1975      *Borders and Border Crossings in the Contemporary British Short Story*  
Barbara Korte, Laura Ma Lojo-Rodríguez, 2020-01-02 This book represents a contribution to both border studies and short story studies In today's world there is ample evidence of the return of borders worldwide as material reality as a concept and as a way of thinking This collection of critical essays focuses on the ways in which the contemporary British short story mirrors questions and engages with border issues in national and individual life At the same time the concept of the border as well as neighbouring notions of liminality and intersectionality is used to illuminate the short story's unique aesthetic potential The first section Geopolitics and Grievable Lives includes chapters that address the various ways in which contemporary stories engage with our newly bordered world and borders within contemporary Britain The second section examines how British short stories engage with Ethnicity and Liminal Identities while the third Animal Encounters and Metamorphic Bodies focuses on stories concerned with epistemological borders and borderlands of existence and identity Taken together the chapters in this volume demonstrate the varied and complex ways in which British short stories in the twenty first century engage with the concept of the border

**Teaching Writing through the Immigrant Story** Heather Ostman, Howard Tinberg, Danizete Martínez, 2021-12-01 Teaching Writing through the Immigrant Story explores the intersection between immigration and pedagogy via the narrative form Embedded in the contexts of both student writing and student reading of literature chapters by scholars from four year and two year colleges and universities across the country this book engages the topic of immigration within writing and literature courses as the site for extending critiquing and challenging assumptions about justice and equity while deepening students sense of ethics and humanity Each of the chapters recognizes the prevalence of immigrant students in writing classrooms across the United States including foreign born first and second generation Americans and more and the myriad opportunities and challenges those students present to their instructors These contributors have seen the validity in the stories and experiences these students bring to the classroom evidence of their lifetimes of complex learning in both academic and nonacademic settings Like thousands of college level instructors in the United States they have immigrant stories of their own The immigrant narrative offers a unique framework for knowledge production in which students and teachers may learn from each other in which the ordinary power dynamic of teacher and students begins to shift to enable empathy to emerge and to provide space for an authentic kind of pedagogy By engaging writing and literature teachers within and outside the classroom Teaching Writing through the Immigrant Story speaks to the immigrant narrative as a viable frame for teaching writing an opportunity for building and articulating knowledge through academic discourse The book creates a platform for immigration as a writing and literary theme a framework for critical thinking and a foundation for significant social change and advocacy Contributors Tuli Chatterji Katie Daily Bruckner Libby Garland Silvia Giagnoni Sibylle Gruber John Havard Timothy Henderson Brennan

Herring Lilian Mina Rachel Pate Emily Schnee Elizabeth Stone *The Culture Of Protest* Susan Bibler Coutin,1993-08-16  
The Culture of Protest explores how religious activists and Central American immigrants by protesting U S refugee and foreign policy create practices meanings and relationships that are themselves a form of social change Viewing change as an ongoing incremental process reveals that the sanctuary movement s reinterpretations of legal religious and social practices produce cultural forms that enact participants visions of a more just social order Unlike recent studies that view U S social movements primarily as strategies for achieving political objectives this book analyzes what goes on in the midst of protest the conversions that some North Americans experience as they come to know Central American reality the relationships that form between refugees and sanctuary workers the jokes and stories told by volunteers and the religious rituals devised by participants This rich ethnography reveals facets of change that would be missed by focusing exclusively on explicit goals and long term strategies As they assist refugees sanctuary workers develop international notions of citizenship create ecumenical interpretations of faith form egalitarian communities and cross a border between first and third worlds to view their own society through the eyes of the poor Sanctuary is thus not only a practical effort to aid refugees and affect U S policy but also a cultural and religious movement with profound implications for U S society
