Crossman The Pursuit Of Power:

Crossman Anthony Howard,1991-10-10 Labour's Thinkers Kevin Hickson,Matt Beech,2007-04-27 *Labour s Thinkers* seeks to examine the key ideas emphasised by the twelve individuals whom the authors judge to have made the most significant development to the political thought of the Labour Party since the 1930s Hickson and Beech argue the Labour Party is a party of values but often not of ideas The number of people involved in the serious discussion of ideas in the Labour Party is relatively small and intellectuals are often viewed with suspicion in what is or was a party set up to represent the interests of the working classes The formulation and development of ideas are therefore crucial to understanding the outcomes of the Labour Party s internal struggles and the basis of the party s appeal *Labour s Thinkers* highlights influential and at times controversial figures involved in the battle of socialist ideas in the Labour Party thus exploring concepts such as equality liberty community power the state ownership and patriotism The Longman Companion to the Labour Party, 1900-1998 Harry Harmer,2014-09-25 A timely reference guide to the Labour Party which brings together the essential facts and figures about the Party since its foundation through to the New Labour of the 1990 s It is the essential reference book for anyone wanting reliable information on the Labour Party **The Life and Times of Thomas Balogh** June Morris,2007-04-01 Thomas Balogh 1905 1985 had a conspiratorial nature and deliberately kept to the shadows so that his substantial role in political life has been little known His predictions were usually right and he looked at economic and political issues from unconventional angles but he was an exasperating man who thrived on controversy He made many enemies and had numerous fallings out especially with the civil service and this affected the way his advice was perceived This first and only biography covers his life and work from his youth in Budapest to his coming to Britain in 1930 and being taken up by Keynes his advance to being a well known if highly controversial political economist his reputation as a brilliant though eccentric don at Balliol College Oxford his burgeoning interest in politics both domestic and in underdeveloped countries and the time of his greatest influence as economic advisor to his close friend Harold Wilson and later as a Minister of State The author provides new insights into the Labour Party and Labour government policies between the mid 1950s until 1982 Balogh was such an acute observer of the values and mores of the time that his diary comments throw new and entertaining light on social as well as on political life at the highest level Interviews with over thirty of the most eminent people in the political economic world of his era also throw new light on the issues and events of the period The Labour Party, War and International Relations, 1945-2006 Mark Phythian,2007-10-11 Questions of war were not central to the founding of the Labour Party yet questions of war specifically under what circumstances the party would support the dispatch of British military forces to fight abroad have divided and damaged the party throughout its history more deeply than any other single issue *The Labour Party War and International Relations 1945 2006* opens by identifying and examining the factors that have influenced the party s thinking about war before considering the post 1945 Cold War context and

analyzing a range of cases the Korean War the party's response to the 1956 Suez crisis the Wilson government's approach to the Vietnam War Labour's response to the 1982 invasion of the Falkland Islands the crisis over the August 1990 Iraqi invasion of Kuwait culminating in the 1991 war the wars of the 1990s over Bosnia and Kosovo the case for war in Iraq developed by the Blair government during 2002-03 This is a timely book that both illuminates approaches to past wars and helps us understand the basis of current military commitments As such it will be of great interest to students across courses in politics history and war studies

Propaganda and Mass Persuasion Nicholas J. Cull, David H. Culbert, David Welch, 2003-07-15 A truly international authoritative A-Z guide to five centuries of propaganda in both wartime and peacetime which covers key moments techniques concepts and some of the most influential propagandists in history This fascinating survey provides a comprehensive introduction to propaganda its changing nature its practitioners and its impact on the past five centuries of world history Written by leading experts it covers the masters of the art from Joseph Goebbels to Mohandas Gandhi and examines enormously influential works of persuasion such as Uncle Tom's Cabin techniques such as films and posters and key concepts like black propaganda and brainwashing Case studies reveal the role of mass persuasion during the Reformation and wars throughout history Regional studies cover propaganda superpowers such as Russia China and the United States as well as little known propaganda campaigns in Southeast Asia Ireland and Scandinavia The book traces the evolution of propaganda from the era of printed handbills to computer fakery and profiles such brilliant practitioners of the art as Third Reich film director Leni Riefenstahl and 19th century cartoonist Thomas Nast whose works helped to bring the notorious Boss Tweed to justice

The New Statesman Adrian Smith, 1996 For the rest of the decade deputy editors Mostyn Lloyd and G D H Cole struggled to combine academic careers with re-establishing the discredited New Statesman as the voice of the left Success was to come only under the leadership and inspiration of a new editor Kingsley Martin and a new chairman John Maynard Keynes following the paper's symbolic take over in 1930 of the Liberal weekly the Nation

Parry-Giles, 2002 Both Truman and Eisenhower combined bully pulpit activity with presidentially directed messages voiced by surrogates whose words were as orchestrated by the administration as those delivered by the presidents themselves A Review of the private strategizing sessions concerning propaganda activity and the actual propaganda disseminated by the Truman and Eisenhower administrations reveals how they both militarized propaganda operations allowing the president of the United States to serve as the commander in chief of propaganda activity As the presidents minimized congressional control over propaganda operations they institutionalized propaganda as a presidential tool expanded the means by which they and their successors could perform the rhetorical presidency and increased presidential power over the country's Cold War message naturalizing the Cold War ideology that resonates yet today Of particular interest to scholars and students of political communication the modern presidency and Cold War history **The Guardian Index** ,1990 *Anglo-Jewish Bibliography, 1971-1990* Ruth Pauline Goldschmidt-Lehmann, Stephen W.
