This textbook gives readers an accessible overview of 20 of the most influential thinkers on education, including long-established names like Vygotsky, Piaget, Bruner, more recent theorists like Dweck, Goleman, and Rosenshine, and other key individuals whose writing has helped shape our views on teaching and learning. Each chapter includes practical examples showing how theories can be used to inform classroom teaching and critiques of each theorist, exploring opposing viewpoints and the strengths and weaknesses of different ideas. A new 'next steps' feature in every chapter offers research project suggestions for students and suggestions for essay questions and discussion topics for tutors.
