Honour's Glassy Bubble Jane Emily Gerard,1906 **The Holbein Society's Facsimile Reprints** Holbein Society,1875 *Constitutional Amendment in Canada* Emmett Macfarlane,2016-08-12 In Canada the 1982 Constitution Act contains the amending formula which outlines a set of procedures required to make changes to the constitution Recent debates over Senate reform the status of the Supreme Court of Canada and the rules governing royal succession have highlighted how important the amending formula is in maintaining the vitality and relevance of the governing system Constitutional Amendment in Canada is the first volume to focus solely on the implications of the amending formula in Canada Emmett Macfarlane has brought together a group of expert authors to address such topics as the difficulties of constitutional reform the intersection of various levels of government and the judiciary and the ability of the public to veto proposed changes Filling a serious gap in the literature Constitutional Amendment in Canada is an authoritative study of the historical and contemporary implications of the amending formula **A Commentary on the Holy Scriptures: Psalms** Johann Peter Lange,1900 *The Crown of Honour. Latour and the Passage of Law Kyle McGee,2015-10-30 This exciting new vision for legal theory combines analytical tools drawn from Latour s actor network theory with the philosophical anthropology of the Moderns in An Inquiry into Modes

of Existence to blaze a new trail in legal epistemology **The Parliamentary Debates: Official Report. Fifth Series- Volume 156: Fifth Session of the Thirty-First Parliament of the United Kingdom of Great Britain and Ireland.13 George V. House of Commons ,1922** **Unstable Properties** Patricia Burke Wood,David Rossiter,2022-10-15 The so called land question dominates political discourse in British Columbia Unstable Properties reverses the usual approach investigating Aboriginal claims to Crown land to reframe the issue as a history of Crown attempts to solidify claims to Indigenous territory The political and intellectual leadership of First Nations has exposed the fragility of BC s political and civil property regimes insisting that the province grapple with diverse interpretations of sovereignty governance territory and property From the historical geographic processes through which the BC polity became entrenched in its present territory to key events of the twenty first century the authors of this clear eyed study highlight the unstable ideological foundation of land and title arrangements In 2015 the Truth and Reconciliation Commission emphasized the need to educate Canadians about settler colonialism Unstable Properties puts critical human geography at the service of this goal by demonstrating that understanding different conceptualizations of land and territorialization is a key element of reconciliation

The Laws of England ,1909 A First Nations Voice in the Australian Constitution Shireen Morris,2020-08-06 This book makes the legal and political case for Indigenous constitutional recognition through a constitutionally guaranteed First Nations voice as advocated by the historic Uluru Statement from the Heart It argues that a constitutional amendment to empower Indigenous peoples with a fairer say in laws and policies made about them and their rights is both constitutionally congruent and politically achievable A First Nations voice is deeply in keeping with the culture design and philosophy of Australia s federal Constitution as well as the long history of Indigenous advocacy for greater empowerment and self determination in their affairs Morris explores the historical political theoretical and international contexts underpinning the contemporary debate before delving into the constitutional detail to craft a compelling case for change **Reports of Cases Heard and Decided in the House of Lords on Appeals and Writs of Error** Great Britain. Chronotopes of Law Mariana Valverde, 2015-01-09 This book develops a new framework for analyzing the spatio temporal workings of law and other forms of governance Chronotopes of Law argues that studies of law and governance can be reinvigorated by drawing on a bundle of quite heterogenous analytical tools that do not have a single provenance or a single political or normative aim but that work well in combination Analyses of legal temporality carried out by anthropologists and studies of law and space undertaken by geographers and legal scholars have proliferated in recent years but these research traditions have remained largely separate By adapting notions such as intertextuality dialogism and the chronotope from Mikhail Bakhtin notions designed specifically to synthesize considerations of space and time in a framework that is open ended interactive and dynamic Mariana Valverde develops an anti metaphysical theory and method for legal studies This approach will be useful both to theorists and to researchers seeking to illuminate the actual workings of law and other forms of governance Indeed a key aim of the book is to break down the institutional and disciplinary barriers that prevent theorists from learning from empirical studies and viceversa Written by one of the foremost sociolegal scholars writing today this theoretically innovative work constitutes a major contribution to contemporary studies in law and society
