Cry Of An Occasion:

Frank O'Hara's Cry of the Occasion Maggie B. Severns-O'Neill, Dartmouth College. Department of English, 2008 *The Cambridge Companion to Wallace Stevens* John N. Serio, 2007-01-18 Wallace Stevens is a major American poet and a central figure in modernist studies and twentieth century poetry This Companion introduces students to his work An international team of distinguished contributors presents a unified picture of Stevens poetic achievement The Introduction explains why Stevens is among the world's great poets and offers specific guidance on how to read and appreciate his poetry A brief biographical sketch anchors Stevens in the real world and illuminates important personal and intellectual influences The essays following chart Stevens poetic career and his affinities with both earlier and contemporary writers artists and philosophers Other essays introduce students to the peculiarity and distinctiveness of Stevens voice and style They explain prominent themes in his work and explore the nuances of his aesthetic theory With a detailed chronology and a guide to further reading this Companion provides all the information a student or scholar of Stevens will need **American**

Criminal Reports John Gardner Hawley, John Gibbons, John Fickey Geeting, Henry C. Geeting, 1907 **Walks in the World** Roger Gilbert, 2014-07-14 In the twentieth century no form of experience has been more frequently taken up by poets eager to capture both the openness and fluidity of life and the aesthetic closure of an artwork than that of a walk Examining the walk poem Roger Gilbert contends that at its heart is the desire to keep what we have lived What is the appeal of the walk poem for modern American poets According to Gilbert it provides a ready made frame within which to explore the full range of individual consciousness as it responds to and reflects on the world immediately at hand The unstructured plotless character of the walk allows poets to move freely from place to place image to image thought to thought Suggesting that the walk poem strikes a compromise between the American obsession with process or movement and more traditionally mimetic concerns Gilbert shows how it enables the poet to apprehend the world as horizon rather than landscape Through perceptive and extended analyses of walk poems by Frost Stevens Williams Roethke Bishop O'Hara Snyder Ammons and Ashbery he uncovers a spectrum of representational strategies for transforming passing experiences into the more lasting substance of poetry Walks in the World addresses anyone who takes poetry seriously Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Proceedings of the Cotteswold Naturalists' Field Club** Cotteswold Naturalists' Field Club, 1892
