Terror de antología Sergio Gaspar Mosqueda, 2023-01-15 No es lo mismo una colección de antología del terror que saber elegir las obras maestras del género para conformar una selección que dignamente se llame Terror de antología La decisión de qué relatos incluir en libros con este título no es muy difícil cuando uno ha sabido beber en las fuentes primigenias Al abocarme a elaborar una obra en la cual compartir los textos que me han influido en mí a la vez que como lector como escritor empecé por buscar los relatos que con una sola lectura se me quedaron para siempre en la memoria y en el ánimo Confieso que de algunos no conocía al autor y de otros confundía al verdadero escritor con otros de estilo similar dudé acerca de qué material incluir finalmente ya que había relatos que no eran propiamente de terror sino de otros géneros como el de ciencia ficción que a su modo también sabe generarnos miedo De otros textos no conocía el título o lo recordaba mal Pero al fin pude hallar las piezas que encajaban perfectamente en el conjunto es decir los cuentos ya clásicos y reconocidos como obras maestras nada difíciles de ubicar a los que pude añadir otros menos famosos pero de igual calidad creativa El material reunido dio para dos volúmenes los cuales les presento deseando que los gocen tanto como yo al darles forma y pulirlos para un mayor disfrute por parte del público latinoamericano El primer tomo de Terror de antología incluye 12 relatos surgidos de las plumas de autores tan destacados como Joseph Sheridan Le Fanu Lovecraft Maupassant y Ambrose Bierce entre otros No podía faltar La Cámara de los Tapices una obra maestra de Walter Scott o La mano disecada de Maupassant Adentrarse en estos relatos adaptados para todo mundo pero principalmente dirigidos a los jóvenes lectores es alentar al miedo a que se apodere de nuestros sentidos en una experiencia estética intelectual y emocional nica *Estética y pragmática del relato fantástico* Juan Herrero Cecilia, 2000 La estética del relato fantástico constituye un reto especial para la mentalidad racionalista del lector contemporáneo y al mismo tiempo ejerce sobre él una desconcertante y sutil fascinación porque este género literario cultiva la sensación de inquietante extrañeza poniendo en confrontación y en ambigua confusión lo vivido y lo soñado lo natural y lo sobrenatural lo racional y lo irracional Al situar al lector dentro de la extraña e inexplicable experiencia vivida por el personaje en el mundo de la ficción el género de lo fantástico nos hace percibir el lado oculto de las fuerzas misteriosas que dirigen el dinamismo profundo de la vida y explora las dimensiones superracionales de la enigmática identidad del ser humano Con los estudios recogidos en este libro el autor ha puesto de relieve las principales características que constituyen la dimensión estética dialéctica y pragmática del género fantástico Además de tratar sobre la evolución literaria del género y sobre las principales teorías en torno a la literatura fantástica el análisis se detiene especialmente en los aspectos relacionados con la organización narrativa y con las estrategias que en ella funcionan para motivar desde el discurso mismo del relato la participación y la cooperación interpretativa del lector dimensión dialéctica o interacción comunicativa entre el universo del texto
