Race, Racism, and International Law Devon W. Carbado, Kimberlé Williams Crenshaw, Justin Desautels-Stein, Chantal Thomas, 2025-08-19 What would it look like to place race at the center of international legal scholarship From its inception in the 70s and 80s critical race theory s target was the field of law revealing it to be a repository for racial power This particular critique of law was explosive because of law s putatively apolitical status making it a unique site for an intellectual sit in that has forever changed the way that race and racism are understood in American society Several decades later as indicators of populism and white nationalism spread across North America and Europe critical race theory remains markedly absent from discourses in global affairs and international law This volume opens the door for CRT to enter the international sphere Featuring contributions from 30 of today s leading scholars from around the world Race Racism and International Law explains how the concept of racial difference sits at the foundation of the legal political and social structures of hierarchy that shape the contemporary global

order Helmed by four pioneering experts two in CRT and two in international law the volume s approach targets regimes of power and violence that implicate racism capitalism and colonialism This volume lays the groundwork for urgent and provocative new modes of critique and analysis
