VeriSMTM - A service management approach for the digital age International Foundation of Digital Competences, 2017-12-19 VeriSM is a framework that describes a service management approach from the organizational level looking at the end to end view rather than focusing on a single department Based around the VeriSM model it shows organizations how they can adopt a range of management practices in a flexible way to deliver the right product or service at the right time to their consumers VeriSM allows for a tailored approach depending upon the type of business you are in the size of your organization your business priorities your organizational culture and even the nature of the individual project or service you are working on Rather than focusing on one prescriptive way of working VeriSM helps organizations to respond to their consumers and deliver value with integrated service management practices Service management plays a leading role

in digital transformation Digital transformation looks outward with a hyper focus on the consumer experience Service management can help shift the mindset from inside out to outside in by developing effective transparent principles that help deliver services that are valuable to the customer All organizational capabilities must understand How does the organization enable and deliver value What are the supply chains within an organization that support value delivery How do the individual capabilities contribute to or support these supply chains to deliver value

Customer Relationship Management

Gerhard Raab,2008 Customer Relationship Management is the first book to explore the benefits to the firm of a globally integrated approach to the management philosophy of Customer Relationship Management CRM The best hope for achieving a sustainable competitive advantage in a global marketplace is by means of better understanding which customers are in the best position to experience long term profitable relationships for the globally oriented firm This book offers both an academic and a practical viewpoint of the importance of CRM in a global framework It integrates the topics of knowledge management total quality management and relationship marketing with the goal of explaining the benefits of CRM for internationally active firms The authors have included six case studies which allow the reader to undertake the role of CRM consultant in a learning by doing approach The book should be required reading for all business executives who desire a customer oriented approach to success and for all students of business who desire to gain insight into a relationship management approach which will become ever more important in the years ahead
