Apter,2016-01-22 Cybernetics and Development deals with the ways in which growing and developing biological systems control themselves during development It is a preliminary attempt to apply some of the insights and techniques of cybernetics to the problem of understanding such development and its control The book begins with a discussion of the nature of cybernetics and its methods Separate chapters cover the use of cybernetics in the field of biological development previous work in the area of cybernetics related to automata theory and the application of information theory to development Subsequent chapters present models of development These include computer programs which continually replicate themselves and control the resulting development growing automata nets as models of development and a method that allows a system to control the

relative sizes of its parts during development and afterwards during regeneration This book provides enough background material to make it understandable both to the biologist with little knowledge of cybernetics and the cybernetician with no great knowledge of developmental biology

A Functional Theory of Government, Law, and Institutions Kalu N. Kalu, 2019-07-12 This book examines the notion that while states may differ in terms of ideology economic system and institutional architecture their role as an organizing framework for system wide political action and international relations is contingent on a series of competing and oftentimes mutually exclusive factors This work clarifies factors that contribute to our understanding of the critical roles of systemic and sub systemic elements of society and how they reinforce the reciprocal problems of human and social organizations and the institutionalization processes that help to constrain them

Information Society and Media Development in Modern Mongolia Undrah Baasanjav, 2025-10-01 This book provides an account of Mongolian information society from the perspective of critical media studies The converged media sphere in modern Mongolia mirrors and shapes political communication economic outlook institutional norms and Mongolian identity When placing Mongolia on the global information society map the arguments in the book juxtapose information society tenets and structural constraints like the small market communist past and mining dependent economy Today people in Mongolia take advantage of the mobility speed and spatiality of the internet as the Mongolians of old once saddled their horses and galloped across the grassy steps of Eurasia

Cybernetics and Its Development in the Soviet Union Roger Eli Levien, 1964 The report is an introduction to the subject of cybernetics with special reference to its origins and ramifications in the United States and its subsequent development in the Soviet Union As a survey document only it was prepared to provide a non scientific audience with sufficient background to facilitate appreciation of the potential impact of cybernetics on science and society As in the United States scientific research military applications economic planning education industry etc are affected by developments in cybernetics Following a brief introduction the report traces the birth of cybernetics and sketches its early development and its growth and emergence in the West Soviet cybernetics is also examined
