where the economy is headed The answer is you can t But you can learn how to accurately predict turns in the economy so
that you can see the road ahead And BEATING THE BUSINESS CYCLE shows you how In BEATING THE BUSINESS CYCLE
Lakshman Achuthan and Anirvan Banerji the directors of the renowned Economic Cycle Research Institute ECRI show how
anyone can predict and profit from the inevitable booms and busts of the economy Why should we believe them Because
while so many economists and financial gurus have failed to predict recessions in the past ECRI s forecasts are known for
being uncannily accurate The institute successfully predicted the U S recession of 2001 many months before the economists
did the 1990 recession and later recovery and most recently the weak U S recovery in 2002 ECRI is in constant demand by
corporate America and the media It is the secret weapon of companies from Disney to DuPont the major fund managers and
many central banks BEATING THE BUSINESS CYCLE is the first book to reveal how decision makers at all levels managers
small business owners and individuals can see into the economy s future when making key decisions Should a large company
search out new clients and build new factories or stores or should it consider cost cutting and layoffs Is it the right time for
you to splurge on that luxury vacation or addition to your house or would it be more prudent to cut back on big expenditures
and save money for a rainy day Written in an easy to understand accessible style BEATING THE BUSINESS CYCLE reveals
which of the hundreds of economic indicators to trust and which ones to trash It will give you the tools and confidence you
need to make the right decisions at the right times even when the rest of the investing and business world would persuade
you otherwise Whether you are a corporate manager or the owner of a small business whether you have your money invested
in stocks or in your home BEATING THE BUSINESS CYCLE will give you the edge you need to trump the competition and
