## **Cyclists Sourcebook:**

The Cyclist's Sourcebook Peter Nye,1991 With 90 million cyclists taking to the road bicycling has become the booming sport of the decade Now here s the ultimate catalog covering all aspects of biking from bicycle organizations to races and tours equipment to publications and films 100 photographs *The Bicyclist's Sourcebook* Michael Leccese,Arlene Plevin,1991 *The Cyclists' Sourcebook* ,1992 **The Splendid Book of the Bicycle** Daniel Tatarsky,2016-10-01 Cycling is hugely popular nowadays Since 2003 more than 100 million bikes have been produced each year more than twice the amount of cars And in 2011 more than 741 000 people cycled to work an increase of 90 000 from 2001 The Splendid Book of the Bicycle is a wide ranging celebration of the bicycle and cycling incorporating social history sport and science It covers the bicycle s invention and subsequent historical development stories of intrepid early cyclists who travelled the world the 20th century popularity of cycle touring and the depiction of bicycles in films books and art It examines the sport of cycling including histories of the Tour de France and the other great European races the Giro d Italia and Vuelta a Espa a and goes on to explore velodrome based cycling and the rise of BMX and mountain biking It investigates the science behind balance and aerodynamics and covers the future of bicycles including innovative flying floating and electric bikes It also touches on the technical aspects of bicycles including an exploded diagram of a typical bike and tips for basic maintenance of your own bike Beautifully illustrated with vintage and modern images this book is a perfect gift for both bike obsessives and general readers Word count 35 000 words *CYCLING* G.LUCY HILLIER,1887 The Little Book of Cycling Orange Hippo,2021-05-04 **Bike for Life** Roy M. Wallack,Bill Katovsky,2005-05-09 Ride a century when you turn a century **Faster** Michael Hutchinson,2015-03-12 For professional cyclists going faster and winning are of course closely related Yet surprisingly for many a desire to go faster is much more important than a desire to win Someone who wants to go faster will work at the details and take small steps rather than focusing on winning Winning just happens when you do everything right it s the doing everything right that s hard And that s what fascinates and obsesses Michael Hutchinson With his usual deadpan delivery and an awareness that it s all mildly preposterous Hutchinson looks at the things that make you faster training nutrition the right psychology and explains how they work and how what we know about them changes all the time He looks at the things that make you slower and why and how attempts to avoid them can result in serious athletes gradually painting themselves into the most peculiar life style corners **Faster** is a book about why cyclists do what they do about what the riders their coaches and the boffins get up to behind the scenes and about why the whole idea of going faster is such an appealing universal instinct for all of us *Cycling Activism* Peter Cox,2023-07-28 The first full length study of cycling activism through the lens of social movement theory this book demonstrates that despite tremendous differences bike activism can be understood as a continuous and connected activity spanning a century and a half and across continents With examples from street protest to institutional lobbying it emphasises cycling s current central importance to zero carbon

transport futures while showing that cycling activism is also not always about the bike or the cyclist as successive generations of activists have used cycling to articulate different visions of freedom and autonomy Moving from a consideration of social movement theory as a means to understand cycling activism the author presents a series of case studies of collective action organisations networks and campaigns in order to illustrate and elaborate a theoretical model through which diverse campaigns and approaches to change can be understood As such Cycling Activism will appeal to those with interests in mobilisation for social change mobility and transport studies and social movement theory as well as cycling studies
