

Cytomorphologic Study of Lymphocytic Thyroiditis: A Correlation between Cytological Grade and Biochemical Parameters

IRAJ*, APARNA BHARDWAJ†, RAJNISH KUMAR†, SEEMA ACHARYA*

ABSTRACT

Introduction: Lymphocytic thyroiditis is an autoimmune disorder characterised by lymphocytic infiltration of the thyroid gland leading to follicular destruction in addition to immunological alterations attributed to the antibodies circulating in the serum against thyroid peroxidase, thyroglobulin, and thyroid stimulating hormone receptor antigens.

Aim: To study the cytomorphologic spectrum of lymphocytic thyroiditis, and correlate the cytological grades with the levels of TSH, FT3, FT4 and Anti-TPO antibodies.

Materials and Methods: This study was carried out over a period of 24 months in Pathology department of SGRPM & HS, Dehradun, India. Out of 58 cases diagnosed as lymphocytic thyroiditis on cytology and graded using Bhatia A et al., grading system, the levels of TSH, FT3, FT4 and Thyroid Peroxidase Antibody were known in 31 cases. The cytological grades of

lymphocytic thyroiditis were correlated with these parameters and statistical analysis was done using one way ANOVA.

Results: Out of 31 cases, majority of patients (30 cases, 96.7%) were females presenting in third decade of life. Cytologically, in 21 cases (67.7%) the patients had grade 2 thyroiditis, followed by grade 3 thyroiditis in 7 cases (22.6%). Anti-TPO was elevated in 26 cases (83.8%) and elevated level of TSH was seen in 17 cases (54.8%). On correlating the cytological grades with these parameters, p-value was found to be 1.00 which is statistically insignificant.

Conclusion: While Lymphocytic infiltration of thyroid follicles is pathognomonic and positivity for antithyroid antibodies is strongly associated with lymphocytic thyroiditis, no correlation was observed between the grades of thyroiditis and the levels of Anti-TPO, FT3, FT4 and TSH.

Keywords: Antithyroid antibody, Cytology and lymphocytic thyroiditis, Hormone receptor antigens

INTRODUCTION

Chronic lymphocytic thyroiditis is a common autoimmune disease exhibiting marked lymphoid infiltrate destroying the thyroid follicles, which are eventually replaced by fibrosis. The disease is characterised clinically by an active phase which is transient exhibiting clinical manifestations of hyperthyroidism followed by evolution and destructive phase that manifest with subclinical or overt hypothyroidism [1].

Though worldwide the commonest cause of hypothyroidism is iodine deficiency, Hashimoto's (lymphocytic) thyroiditis remains the commonest cause of spontaneous hypothyroidism in areas of adequate iodine intake. The annual incidence of lymphocytic thyroiditis worldwide is estimated to be 0.3-1.5 cases per 1000 persons exhibiting a female predilection, with peak incidence occurring in 30-50 years of age [2,3,4].

Fine needle aspiration cytology (FNAC) is a highly sensitive tool in diagnosing Hashimoto's (lymphocytic) thyroiditis, with a diagnostic accuracy rate of 92% [5]. The diagnosis of the disease on fine needle aspiration cytology (FNAC) smears is made by finding the oxyphilic transformation of follicular epithelial cells (Hurthle cells), infiltration of follicles by lymphocytes and plasma cells, presence of moderate number of lymphoid cells in background with scanty or absent colloid in the background [6].

The present study was carried with an aim to study the clinical presentation, and cytomorphologic spectrum of lymphocytic thyroiditis and correlate the cytological grades with the levels of TSH, FT3, FT4 and Anti-TPO antibodies. The concept was designed to enhance understanding of pathogenesis of the disease.

MATERIALS AND METHODS

This study was carried out in the Department of Pathology at SGRPM & HS, Dehradun, Uttarakhand, India. Approval of the study

was taken from the institutional ethical committee (Registration No. ECR/710/Inst/UK/2015) before commencing the study (Reference No.SGRM/EC/52/16).

This was a prospective time bound analytical observational study and all the patients who presented to the hospital and fitted in the inclusion criteria were included. All patients aged between 12 to 80 years presenting to ENT/surgery OPD with painful or painless neck swelling and/or clinical features of constipation, lethargy or cold intolerance suggesting hypothyroidism or poor attention span, hyperactivity, restlessness, heat intolerance, loose stools suggesting hyperthyroidism were referred to pathology department for cytological diagnosis. Thus, all the cases of lymphocytic thyroiditis diagnosed on FNAC from June 2016 to May 2018 for which biochemical parameters were available were included in the study. Patients having history of thyroid related drug intake or any thyroid related surgery were excluded from the study. The relevant clinical details of the patient were included and recorded on predesigned proformas.

Fine-needle aspiration cytology (FNAC) of thyroid was done by using 23G needle attached to 10 mL syringe by the non aspiration technique [6]. Both air dried and wet fixed smears were prepared. The slides were stained with Giemsa (MGG) stain and Papanicolaou stain respectively. Fifty eight cases were cytologically diagnosed as lymphocytic (Hashimoto's) thyroiditis on cytology. The smears were seen by two cytopathologists and grading was done independently based on the presence of impingement or infiltration by lymphocytes and plasma cell into the thyroid follicles, Hurthle cell change, multinucleated giant cell, epithelioid cell clusters and/or formation of lymphoid follicles. Grading of thyroiditis was done on the smears based on a set of predefined criteria as described by Bhatia A et al., into Mild (Grade-1) with few lymphocytes infiltrating the follicles, Moderate (Grade-2) with moderate lymphocytic infiltration along with Hurthle cell change and Severe (Grade-3) with florid

Cytological Biochemical Study Of The Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Cytological Biochemical Study Of The PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning.

By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Cytological Biochemical Study Of The PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Cytological Biochemical Study Of The free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Cytological Biochemical Study Of The Books

1. Where can I buy Cytological Biochemical Study Of The books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Cytological Biochemical Study Of The book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Cytological Biochemical Study Of The books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing.

- Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
 7. What are Cytological Biochemical Study Of The audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
 8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
 9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
 10. Can I read Cytological Biochemical Study Of The books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
