Dr Niven's conclusions are derived solely from his close reading of the novels themselves and when relevant from Lawrence's correspondence and short stories. This study with its unusually lively and commonsense approach confirms Lawrence as not only a great novelist but a central figure in the development of the modern mind. *D.H. Lawrence and 'difference'* Amit Chaudhuri, 2003. This is probably the first instance of Lawrence's poetry being discussed in the light of recent theoretical developments. It is also certainly the first time a leading postcolonial writer of his generation has taken as his subject a major canonical English writer and through him remapped the English canon as a site of difference.

David Herbert Lawrence (11 September 1885 – 2 March 1930) was an important and controversial English writer of the 20th century whose prolific and diverse output included novels, short stories, poems, plays, essays, travel books, paintings, translations, literary criticism, and personal letters. His collected works represent an extended reflection upon the dehumanizing effects of modernity and industrialisation. In them, Lawrence confronts issues relating to emotional health and vitality, spontaneity, sexuality, and instinctive behaviour. Lawrence's unsettling opinions earned him many enemies, and he endured hardships, official persecution, censorship, and misrepresentation of his creative work throughout the second half of his life, much of which he spent in a voluntary exile he called his savage pilgrimage. At the time of his death, his public reputation was that of a pornographer who had wasted his considerable talents. E. M. Leavis championed both his artistic integrity and his moral seriousness, placing much of Lawrence's fiction within the canonical great tradition of the English novel. He is now generally valued as a visionary thinker and a significant representative of modernism in English literature, although some feminists object to the attitudes toward women and sexuality found in his works.
